# *Puzzle*

*Puzzle* represents an exclusive, functional and sophisticated boiserie, with the elegance of the unmistakable MisuraEmme style expressed in every detail, including construction. The rigorous geometry of the parallel and perpendicular lines scan and underline a modern structure and become an integral part of the architecture.

*Puzzle* rappresenta una boiserie esclusiva, funzionale e sofisticata, con l'eleganza dello stile inconfondibile MisuraEmme espresso in ogni dettaglio, anche costruttivo. La rigorosa geometria delle rette parallele e perpendicolari, scandiscono e sottolineano una struttura moderna e diventano parte integrante dell'architettura.

## SOLUTIONS

The following pages offer a series of stylized settings, aimed to suggest the image and style of MisuraEmme in the design of the different areas of the house. These settings are characterized both by the combination of different products, both by the choice of their finishes, and by the choice of environment finishes. All this characterizes the corporate identity and the design proposals suggested by MisuraEmme.

Nelle pagine seguenti vengono proposte una serie di ambientazioni stilizzate, volte a suggerire l'immagine e lo stile di MisuraEmme nella progettazione delle diverse aree della casa. Queste ambientazioni sono caratterizzate sia dall'accostamento dei diversi prodotti, sia dalla scelta delle finiture degli stessi, che dalla scelta delle finiture dell'ambiente. Il tutto caratterizza l'identità aziendale e le proposte progettuali suggerite da MisuraEmme.

**Puzzle** is a completely custom-made Boiserie system both in height and in width, for wall coverings, which includes a series of completely integrated elements: *Legno*, *Teke* glass containers and shelves. It consists of an aluminum frame system to be fixed to the wall and a series of frame doors, which hook onto the front aluminum wall structure. It is characterized by both vertical and horizontal profiles with 6 mm joints in painted aluminum, which characterize its design. Where provided, the horizontal profiles also have the function of attachment for the various elements to be integrated into the boiserie. It is possible to insert different finishes in the frames; Wood, natural cement, woven straw and melamine. The perimeters are defined with finishing profiles or lateral, upper and lower infill strips. The upper and lower buffer strips can be equipped with horizontal Leds.

**Puzzle** è un sistema Boiserie completamente su misura sia in altezza che in larghezza, per rivestimenti pareti, che prevede una serie di elementi completamente integrabili: contenitori *Legno*, *Teke* in vetro e mensole. E' costituito da un sistema di intelaiatura in alluminio da fissare a muro e da una serie di ante telaio, che si agganciano alla struttura in alluminio a muro frontalmente. E' caratterizzato da profili con fuga da 6 mm in alluminio verniciato sia verticali che orizzontali, che ne caratterizzano il design. I profili orizzontali là dove previsto, hanno anche la funzione di attacco per i vari elementi da integrare alla boiserie. E' possibile inserire nei telai diverse finiture; *Essenza*, *Cemento naturale*, *paglia intrecciata* e *melaminici*. I perimetri sono definiti con profili di finitura o fasce di tamponamento, laterali, superiori ed inferiori. Le fasce di tamponamento superiori ed inferiori possono essere dotate di *Led* orizzontali.

## SOLUTIONS

The following pages offer a series of stylized settings, aimed to suggest the image and style of MisuraEmme in the design of the different areas of the house. These settings are characterized both by the combination of different products, both by the choice of their finishes, and by the choice of environment finishes. All this characterizes the corporate identity and the design proposals suggested by MisuraEmme.

Nelle pagine seguenti vengono proposte una serie di ambientazioni stilizzate, volte a suggerire l'immagine e lo stile di MisuraEmme nella progettazione delle diverse aree della casa. Queste ambientazioni sono caratterizzate sia dall'accostamento dei diversi prodotti, sia dalla scelta delle finiture degli stessi, che dalla scelta delle finiture dell'ambiente. Il tutto caratterizza l'identità aziendale e le proposte progettuali suggerite da MisuraEmme.

*Palo Alto Wall*, consists of a wall frame, punctuated by electrified uprights, to which panels of different finishes are then hooked frontally: wood, glass, woven straw, lacquered and ennobled. Fully customizable in height and width, thanks to the large number of standard modules, it is possible to equip *Palo Alto Wall* with the equipment already available for the *Palo Alto I-Box* and *Palo Alto Free* systems. This equipment is fixed to the racks through vertically adjustable brackets in height. It is possible to finish the perimeter of the product, with finishing profiles or side, upper and lower buffer strips. The upper and lower buffer strips can be equipped with horizontal Leds.

*Palo Alto Wall*, è costituito da un'intelaiatura a muro, scandita da montanti elettrificati, ai quali vengono poi agganciati frontalmente pannelli di diversa finitura: essenza, vetro, paglia intrecciata, laccato e nobilitato. Completamente customizzabile in altezza e larghezza, grazie alla grande quantità di moduli di serie, è possibile attrezzare *Palo Alto Wall* con l'attrezzatura già disponibile per i sistemi *Palo Alto I-Box* e *Palo Alto Free*. Tale attrezzatura è fissata alle cremagliere attraverso staffe regolabili verticalmente in altezza. E' possibile finire il perimetro del prodotto, con profili di finitura o fasce di tamponamento, laterali, superiori ed inferiori. Le fasce di tamponamento superiori ed inferiori possono essere dotate di Led orizzontali.
