MisuraEmme

Price list multiplier
x 1,1

To obtain the price in **€ (euro)** use the points on the price list and multiply them by the above mentioned index. **VAT excluded**
*The multiplier is not valid for products with value expressed in **net price.***

GENERAL SALES CONDITIONS

1 PRICE LIST
This price list invalidates and replaces previous price lists for all intents and purposes.
For shipping costs please refer to the established sales conditions.
Prices do not include project design, shipping to the final buyer's location or installation at the final buyer's location.
The list prices are approximate, only. The final price is the one specified on the order confirmation.
MisuraEmme reserves the right to effect any changes it considers appropriate, at any time and without prior notice.

2 CONDITIONS
The delivery dates indicated on the order conformation are only approximate and not binding.
We allow up to 6 days from the date of order confirmation to make changes to orders in progress.
After this time, since we presume that the order has entered the production phase, there will be an additional charge for any modifications: 30% of the amount of those items which have already been manufactured - completely or even partially.
The customer agrees to check the availability of low inventory or discontinued products before placing an order.

3 COMPLAINTS AND RETURNS
Any complaint regarding the goods must be received within 6 days from when the goods are received, and must be accompanied by the quality control document included in the package/crate, and pictures showing the source of the complaint.
The customer may return goods only after receiving prior authorisation in writing from MisuraEmme.
The goods must be properly packed and/or crated before being returned.
Returns are not accepted unless expressly authorised in writing and free of charges at our headquarters.

4 PACKAGING
Packing in cardboard boxes is included in the price.
Requests for packing in wooden crates will be subject to a 10% surcharge for a minimum net amount of € 300.
Items made of crystal glass and items in marble are packed precisely and reliably.

5 TECHNICAL NOTES
The measurements indicated are in mm.
The technical specifications on the price list are approximate and not binding.
Samples of finishes and wood, fabric and leather are not binding and only indicative.
Laquer covers may show variations in shade from one lot to another.
Scars, insect bites, wrinkles and veins are natural characteristics of authentic leather.
These marks are proof that this product is made of real leather, and should not be considered as defects.
It is technically impossible to guarantee that colours will not change over time or vary from one production lot to another.
Over time, the appearance of wood finishes may change due to exposure to light and ageing of the material.
The buyer accepts such tolerances upon order confirmation.

6 CUSTOM SIZES
Upon the customer's special request, the company can supply items in custom sizes, which are obtained by reducing one or more dimensions of standard articles. When this is done, the company reserves the right to apply a surcharge on the listed price, calculated on the basis of the number of cuts made on the product and on the need for completing additional processing according to a technical drawing.

7 PAYMENTS
The amount shown on the order confirmation is the amount that must be paid.
Any discounts agreed upon must be specified on the order confirmation.
If a payment is not honoured by the bank, the relative bank fees must be paid by the buyer, and the prices on the price list - and not those agreed upon with the customer - will be applied.
If payments are late, MisuraEmme may ask to be compensated for the damage suffered plus the interest described in Ital. Legis. Decree 231/02. 231/02.
All goods shall remain the property of MisuraEmme until paid for in full.
If goods are sold by buyers to third parties before payment to MisuraEmme, credit rights are intended transferred to MisuraEmme.

8 EXCLUSIVE JURISDICTION
The contract is governed by Italian Law.
Any dispute between the parties regarding the interpretation, stipulation, execution and/or validity of the contract will be adjudicated exclusively before the Court of Como, Italy; however, the company may have the right to join the buyer's forum.

● **QUILTED PATTERN OPTION**

Coverings may show variations in shade from one lot to another. Scars, insect bites, wrinkles and veins are natural characeristics of autentic leather. These mark are proof that this product is made of real leather, and should not be considered as defects.

TECHNICAL DESCRIPTION OF FINISHES

Melamine finish: wood particleboard, in the finishes: 840 metallic graphite, 841 metallic champagne, 842 metallic dark bronze, 853 tobacco, 866 cenere, 878 elm tranché grey, 885 primo fiore.

Matt lacquer: Closed pore water-based 12 Gloss semi-matt pigmented varnish.

Glossy lacquered: Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.

Wood:
50 brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
51 brushed black oak, coloured with black varnish, open pore 6 gloss semi-matt acrylic finish.
53 brushed elm grey, coloured with grey varnish, open pore 6 gloss semi-matt acrylic finish.
54 eucalyptus, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
62 ebony, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
66 brushed tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
67 noce canaletto, semi-transparent varnish, 6 gloss semi-matt acrylic finish.

Glossy wood:
L51 brushed black oak, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
L53 brushed elm grey, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish.
L54 eucalyptus, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
L62 ebony, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
L66 tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.

Tecnomarble: Porcelain tiles Th.6mm.

It is technically impossible to guarantee that colours will not change over time or vary from one production lot to another on parts in lacquered wood, glass or painted glass. Over time, the appearance of wood finishes may change due to exposure to light and ageing of the material. therefore colour variations should not be considered as defects, but as proof of the use of natural materials and authentic artisan processes.

PALO ALTO I-BOX — STRUCTURE PRODUCT SHEET

WOOD SIDES Th.19mm.
Starting/end pieces
Melamine: particleboard panel in wood Th.19mm. with melamine facing.
Matt/glossy lacquer: particleboard panel in wood Th.19mm. with melamine facing lacquered matt / glossy.
ABS edges in the same colour.
Supplied with premounted level regulator.

WOOD SIDES Th.38mm.
Starting/end/central pieces
Melamine: particleboard panel in wood Th.38mm. with melamine facing.
Matt/glossy lacquer: particleboard panel in wood Th.38mm. with melamine facing lacquered matt / glossy.
ABS edges in the same colour.
Supplied with premounted level regulator.

SIDE EXTENSIONS Th.19mm.
To fasten to the Starting/end wood sides Th.19mm.
Melamine: particleboard panel in wood Th.19mm. with melamine facing.
Matt/glossy lacquer: particleboard panel in wood Th.19mm. with melamine facing lacquered matt / glossy.
Wood: particleboard panel in wood Th.19mm. finished with wood veneer.
ABS edges in the same colour.

FRAME SIDE Th.38mm.
Varnished aluminium frame Th.38mm. with fixed crosspieces for bases / tops.
Supplied with premounted level regulator.
Height adjustable crosspieces, in varnished aluminium, for shelves / drawer units.

TOPS/BASES/SHELVES Th.38mm.
Melamine: particleboard panel in wood Th.38mm. with melamine facing.
Matt lacquer: particleboard panel in wood Th.38mm. with melamine facing lacquered matt.
ABS edges in the same colour.
Internal shelves supplied with shelf holders in metal with varnished gun metal, pre-designed to mount clothes rods.
The rods must be mounted on the shelves before they are positioned.

BACKS PANELS
Melamine: particleboard panel in wood Th.8mm. with melamine facing.
Matt lacquer: particleboard panel in wood Th.38mm. mm with melamine facing lacquered matt.
Tempered glass Th.4mm.
Tempered mirror Th.6mm.
Tecnomarble: porcelain tiles Th.6mm.

HINGES for doors Th.22mm. In steel with soft closure varnished gun metal finish, with 110 ° / 165 ° opening option.

HINGES for NARCISSE DOORS Dedicated opening system with shock absorbers, with 2 hinges on the base and top, 110 ° / 165 °.

HINGES for REX DOORS Hinges with 180° opening on exclusive project for MisuraEmme®. The two hinges are positioned on the sides; they are equipped with soft close slowing device and closure magnet.

SLIDING TRACK Sliding system in anodised aluminium, with carriages that can be adjusted, spring-loaded shock absorber stops for opening and closing, and an anti-collision pin, with supplement see page 551.

FLUSH TRACK Sliding system in anodised, with magnetic shock absorbers. The shock absorber is loaded with the force applied by a magnet. This interaction allows it to not have a mechanical connection and be completely silent. Also, the force applied by magnets is constant along the entire track, which prevents jolts and imbalances.

PALO ALTO I-BOX — TECHNICAL DESCRIPTION OF FINISHES

MELAMINE Particleboard panel in wood finished with melamine facing.

MATT LACQUER Closed pore water-based 12 Gloss semi-matt pigmented varnish.

MATT LACQUER Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.

WOOD
Brushed elm grey, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish.
Brushed oak fumè, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
Brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
Brushed oak stained black, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
Tobacco semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.

DOOR FINISHES — PRODUCT SHEET

TECNO DOOR
Particleboard panel in wood finished with melamine facing.
Thickness 22mm.
ABS edge in the same colour.

MILANO DOOR
Particleboard panel in wood finished with melamine facing lacquered matt / glossy, or covered with wood veneer.
Thickness 22mm.
ABS edges with lacquered finish or in wood in the same colour.

LEXINGTON DOOR
MDF panel in wood finished with matt lacquered melamine facing, or covered with wood veneer.
Thickness 22mm.
ABS edges with matt lacquered finish, or in wood in the same colour.
Sliding / flush door for module W.1402 panel, divided into 2 parts, in MDF, finished in matt lacquered melamine facing, or wood veneer.

FIRST DOOR
Particleboard panel in wood with varnished glass / mirror with moulding.
Thickness 22mm.
Profiles in varnished aluminium.
Sliding / flush door for module W.1402 panel, divided into 2 parts, in sandwich panel.

BRILLANTA DOOR
Particleboard panel in wood with glass / mirror with polished bevel, with moulding.
Thickness 22mm.
Profiles in varnished aluminium.
Sliding / flush door for module W.1402 panel, divided into 2 parts, in sandwich panel.

LONDON DOOR
Particleboard panel in wood covered in eco-leather / leather.
Thickness 22mm.
Profiles in varnished aluminium.

REX DOOR
Frame in varnished aluminium. Thickness 35mm. handle integrated into the profile
Panel in wood finished Th. 14mm with wood veneer, or tempered glass Th.4mm / tempered mirror Th.4mm.
Insert fixed with seal.

ZEUS DOOR
Frame in varnished aluminium. Thickness 35mm. handle integrated into the profile
Insert: panel in wood finished Th. 14mm with melamine, tempered glass Th.4mm / tempered mirror Th.4mm.
Insert fixed with seal.

NARCISSE DOOR
Frame in varnished aluminium, thickness 30mm.with handle applied in the profile
Insert: panel in tempered glass Th.4mm / tempered mirror Th.4mm.
Glass with screen printed frame fixed with dual-component glue.

PUZZLE DOOR
Frame in varnished aluminium, thickness 30mm.with handle applied in the profile
Insert: panel in wood finished Th. 14mm with wood veneer, melamine, matt lacquer or with fabric, eco-leather and leather
Insert fixed with dual-component glue.

The th.22mm doors can be positioned on wardrobes with wood sides or frame sides, except for doors for corner modules.
Door Th.22mm.: with hinges with 165° opening only on wood sides
Narcisse / Zeus Doors: applied on vertical upright only on frame sides

PALO ALTO I-BOX

TECNO DOOR Designer: CRS

Vertical grain on all models except for sliding door W.1445 and flush door W.1436 with panel divided into 2 parts where the grain is horizontal.
Vertical is available on request.
On sliding door W.1445, the Roller, Rod, Bridge and Regula model handles cannot be applied.
On flush door W.1436, the Flap handle cannot be applied.
On sliding door W.1445 and flush door W.1436 with height under H.2400 / 2384, it is not possible to apply the handles Revers, Gost Per, Tub.

HINGED Supplied with soft close hinges in gun metal finish. For each pair of hinged doors, only one handle is mounted on the Right-hand door. Handles can be installed on both doors upon request. See the handles chapter starting on page 28. 165 ° opening hinge option.

SLIDING Supplied with sliding / straightening carriages with anti-collision pins. For each external door, only one handle is mounted on the side opposite the opening direction. Handles can be installed on both sides of the door upon request. See the handles chapter starting on page 31.

FLUSH Supplied with a flush sliding system with shock absorbers and straightener.

GUIDE TO THE DOORS W.1116 **H.2422 - D.586** FLUSH DOOR WARDROBE

The prices refer to compositions with a wooden back.
For internal structural elements, see from p. 242; for equipment and accessories, see from p. 397.
THE PRICE INCLUDES: external side panels (Th.19mm.) in a finish matching the interior, 1 shelf.
For height, width and depth reductions, see Reductions and Supplements from p. 545.
Add the price of the handles, see p. 31.

* In the 3-door wardrobe, the right hand door has an overlap of 135 mm, therefore pull-out elements (drawers, pull-down rails, shelves, etc.) cannot be inserted.

HINGED
Palo Alto
I-Box

designer GIANNI BORGONOVO

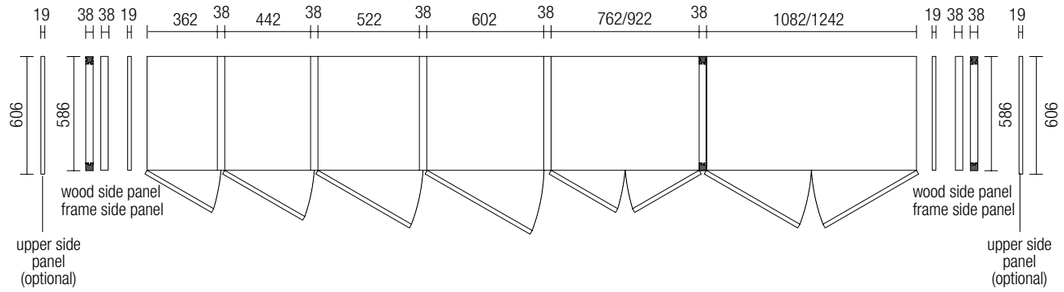

For height reductions, see the chapter on Reductions and Supplements page 545.

WOOD SIDES / FRAMED SIDES

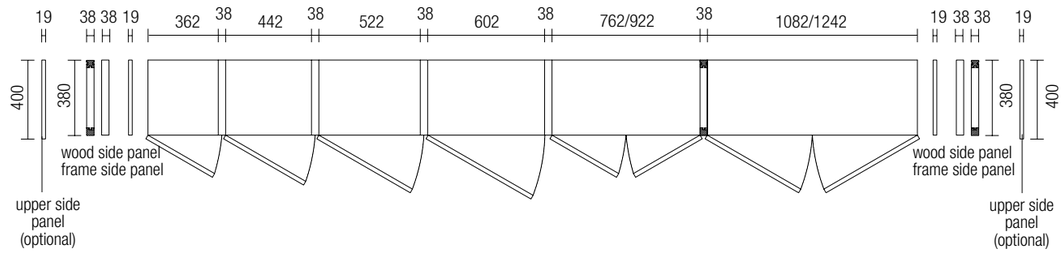

For width and depth reductions, see the chapter on Reductions and Supplements page 545.
Niche fitting possibility (excepting for corner module), see the chapter on Reductions and Supplements page 545.

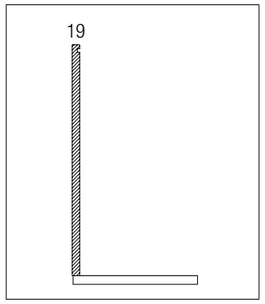

STRUCTURE DEPTH 586mm.
WITH WOOD SIDES / FRAMED SIDES

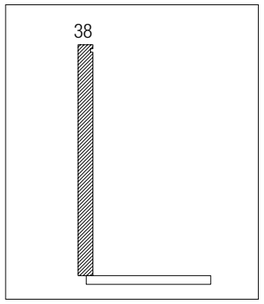

STRUCTURE DEPTH 380mm.
WITH WOOD SIDES / FRAME SIDES

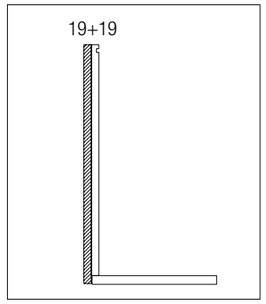

DOOR OVERLAP ON WOOD SIDE PANELS

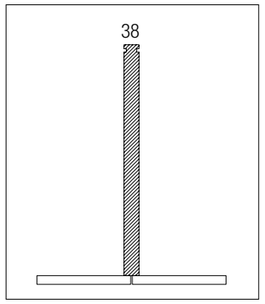

Beginning/end side panel Th.19mm.
Internal structure in melamine.
External structure in melamine, matt lacquer, glossy lacquer.

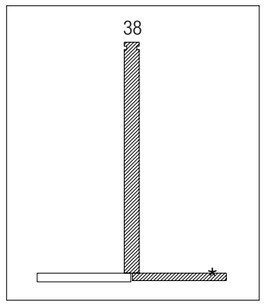

Beginning/end side panel Th.38mm.
in melamine, matt lacquer or melamine internal structure/matt/ glossy lacquer external structure.

Finishing upper side panel Th.19mm. (OPTIONAL). For fastening to lateral panel. Closes and conceals space between hinge and wardrobe frame.
Finishing: melamine, matt lacquer, glossy lacquer, wood.

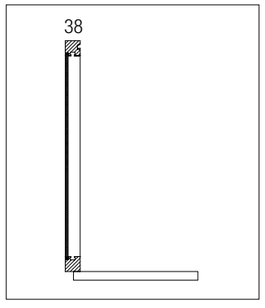

Central side panel Th.38mm.
in melamine, matt lacquer.

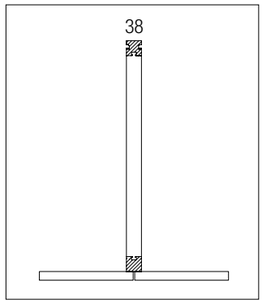

Beginning/end side panel Th.38mm
in melamine or matt lacquer with
* fixed/extendable infill profile.

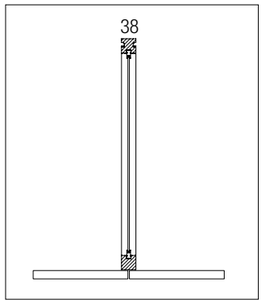

DOOR OVERLAP ON FRAME SIDE PANELS

Beginning/end frame, Th.38mm., with or without glass, in gun metal varnished aluminium, dark bronze

Central frame, Th.38mm., without glass, in gun metal varnished aluminium, dark bronze

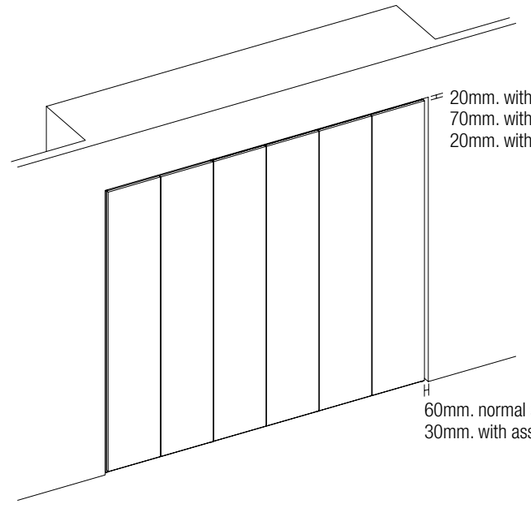

Central frame Th.38mm. with glass in gun metal varnished aluminium, dark bronze

FOR ASSEMBLY:

Upper space of 20mm. WITHOUT TRANSFORMER.
Upper space of 70mm. WITH TRANSFORMER for LED LIGHTING SYSTEM ON COVER.
Upper space of 20mm. WITH TRANSFORMER RECESSED INTO THE COVER WITH INSPECTABLE DOOR.
(only for depth of 586mm.).
A space of 60mm. must be included on sides.

FOR ASSEMBLY IN RECESS:

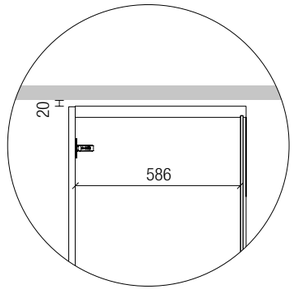

Upon request, arrangement of one module for assembly in recess, with supplement see pag. 545.
A space of 30mm. must be included on sides.
WE DO NOT RECOMMEND NICHE FITTING IN SPACES WITH A CHEST OF DRAWERS INCLUDED, AND WHEN FITTING A ZEUS/NARCISSE DOOR.
NICHE FITTING WITH CORNER MODULE, NOT AVAILABLE

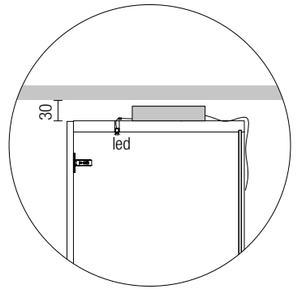

20mm. without transformer
70mm. with transformer
20mm. with transformer recessed into the cover

Recessed transformer
NOT AVAILABLE

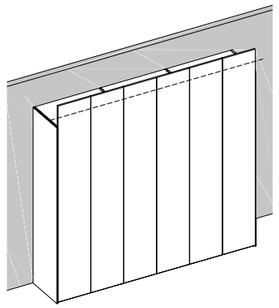

NICHE FITTED COMPOSITION
By request, the wardrobe can be supplied with special hardware for niche fitting.

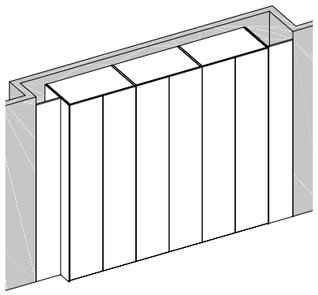

CHANGE IN DEPTH D.586/380
Two different depths can be applied to the same composition.

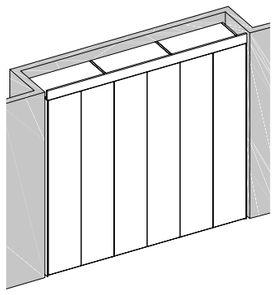

DOORS PROTRUDING AT THE TOP WITH STANDARD STRUCTURES
A door that is higher than the structure can be supplied.

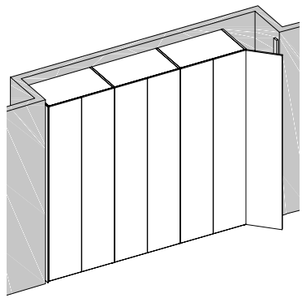

FIXED SIDE INFILL PROFILES
Possibility of closing the wardrobes on the sides, flush with the wall, in various positions.

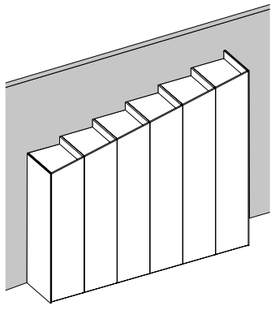

UPPER INFILL PROFILE
Possibility of closing the gap between the wardrobe and the ceiling with a hinged door

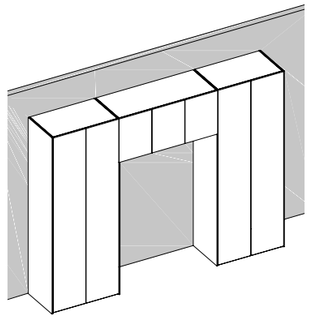

OPENING SIDE INFILL PROFILES
Possibility of creating a space on the side that can be opened, with a hinged door made to size

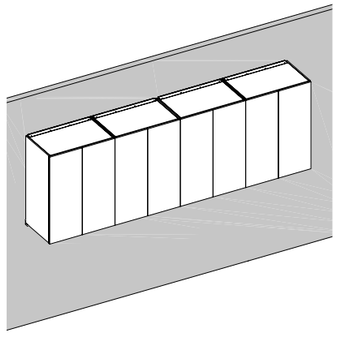

LOFT SHAPING, ONLY FOR WOODEN DOORS
Diagonal cutting is possible when using Tecno Wood-Steel / Milano hinged doors, see the chapter on Reductions and Supplements, page 543.

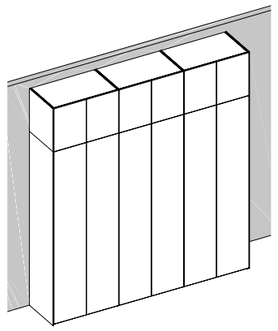

BRIDGE MODULE BETWEEN 2 SIDE PANELS
Bridging modules to be inserted between 2 wardrobes

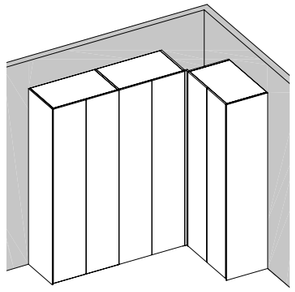

SUSPENDED BRIDGING MODULES
Containers with wall hook

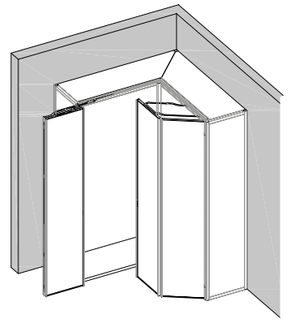

UPPER UNITS
For height solutions exceeding H 2902 mm putting two structures on top of one another.

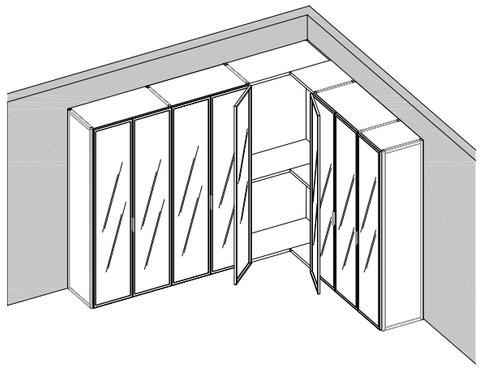

CORNER CANNOT BE USED
Solution available using a corner joining plate

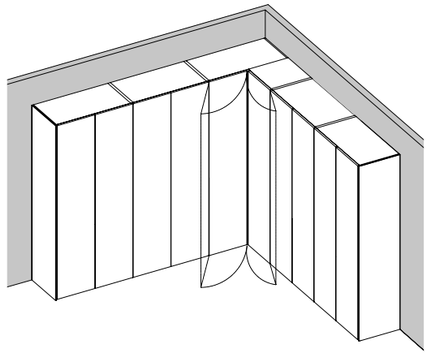

45° CORNER WITH REX RX6 DOOR

90° CORNER WITH NARCISSE DOOR
Wood sides / aluminium frame
Back panels: wood / glass / mirror / tecnomarble

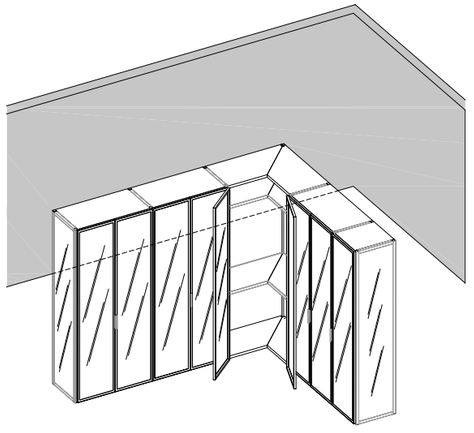

90° CORNER WITH DOORS Th.22mm. OPENING 155°
Wood sides / aluminium frame
Back panels: wood / glass / mirror / tecnomarble

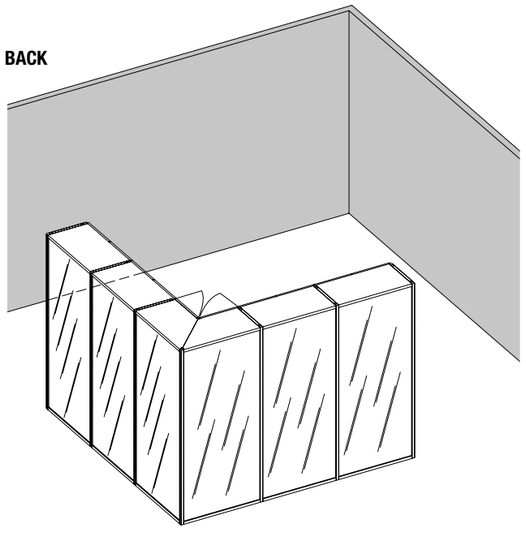

45° CORNER WITH NARCISSE DOORS
Available only with glass back panel

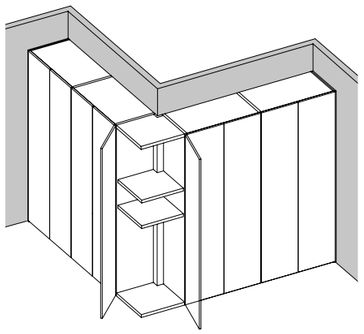

FRONT

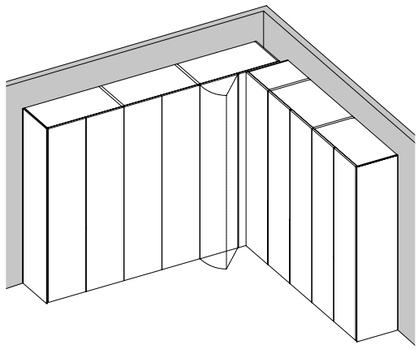

BACK

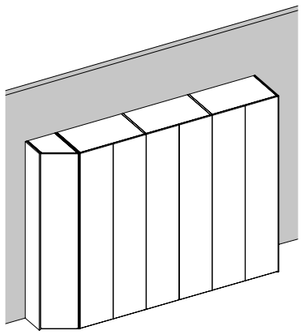

OUTSIDE CORNER
Modular connection, with any type of opening

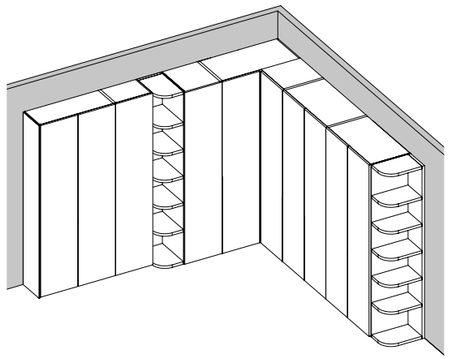

CORNER WITH FIXED DOOR
Door opening using a flat hinge on the fixed door

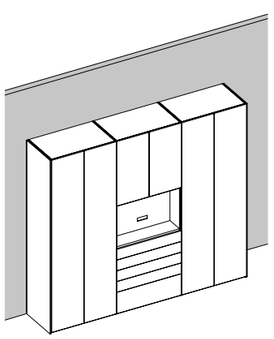

WOOD SIDE BEVELLING
Module to be used with a finished wardrobe, with a Th.19mm. outside side panel.

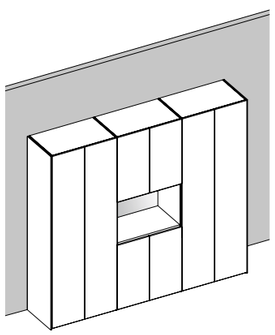

OPEN END PIECE WITH WOOD SIDE
Used as an end element or to connect wardrobes with two different depths (D. 586/380mm.).

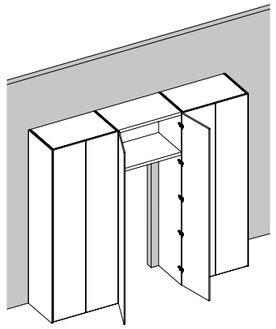

TV SPACE
Wooden back panel with rectangular hole and cable gland cover

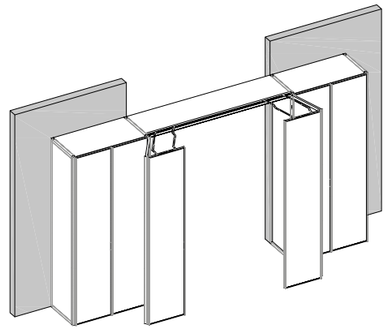

OPEN COMPARTMENT
Mirror back panel

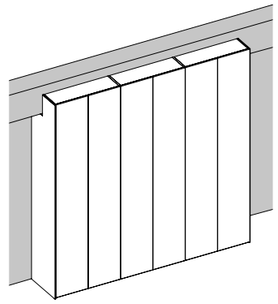

DOOR PASSAGE WITH HINGED DOOR
Wood sides with door opening 110° / 165°

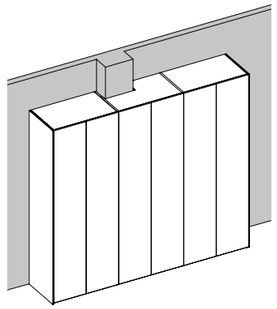

DOOR PASSAGE WITH REX RX6 DOOR
For price details, contact the Company.

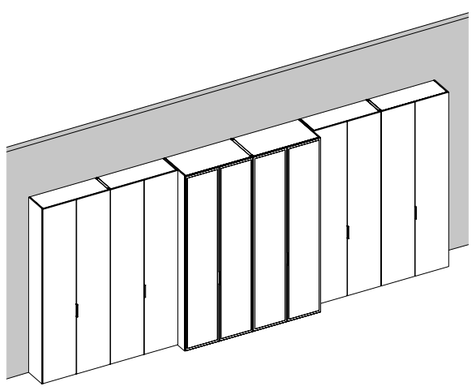

STRUCTURE SHAPED FOR BEAMS
For price details, contact the Company.

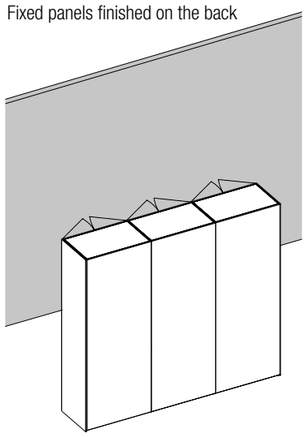

STRUCTURE SHAPED FOR PILLAR
For price details, contact the Company.

BOWINDOW
Dual wardrobe depth combination D. 380/586 mm.

ROOM CENTRE WARDROBE
Fixed panels finished on the back

HINGED DOOR WARDROBE MODULES
By using the modules available, one wardrobe can be formed for each 80mm. in width. The measurements are with start / end side panels Th.19mm. (optional: side claddings, add 38mm.) or with start / end wood sides Th.38mm., or with start / end frames Th.38mm.

FOR THE WARDROBE COMPOSITIONS

To be added to the modules:

- WOOD SIDE PANEL Th.19 / 38mm. or FRAME Th.38mm. BEGINNING

- WOOD SIDE PANEL or CENTRAL FRAMES Th.38mm.

- WOOD SIDE PANEL Th.19/38mm. or FRAME Th.38mm. END

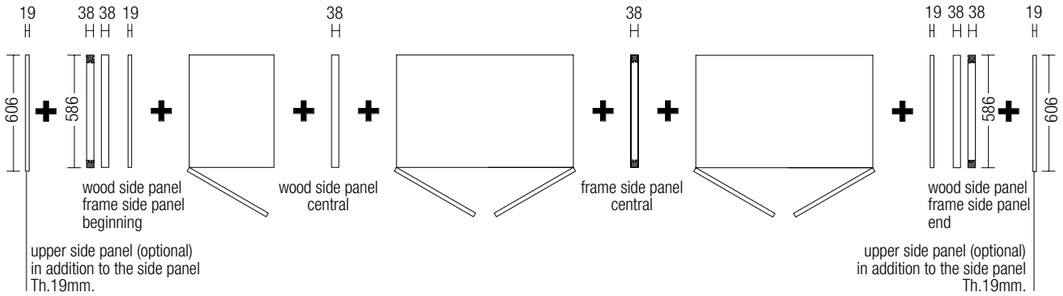

- Add UPPER SIDE PANELS (optional).

- Add required DOORS.

- HANDLES: for each pair of hinged doors, there is a single handle on the right-hand door.
  Handles can be installed on both doors upon request, see handles chapter on page 31.

- INTERNAL STRUCTURAL ELEMENTS: see from pag. 178 and chapter on Equipment and accessories starting from pag. 397.

Complete the order by indicating the finishes on the frame, doors, internal equipment, handles and profiles.
N.B.: if the wardrobe ends with Th.19mm. side panel, a shelf must be used inside the column.

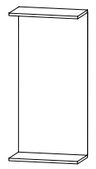

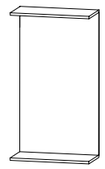

For interior equipment see from page 178 and Equipment and Accessories chapter from page 397.
For reductions, see the chapter on Reductions and Supplements page 545.

SLIDING
Palo Alto
I-Box

designer GIANNI BORGONOVO

SLIDING WARDROBE HEIGHTS

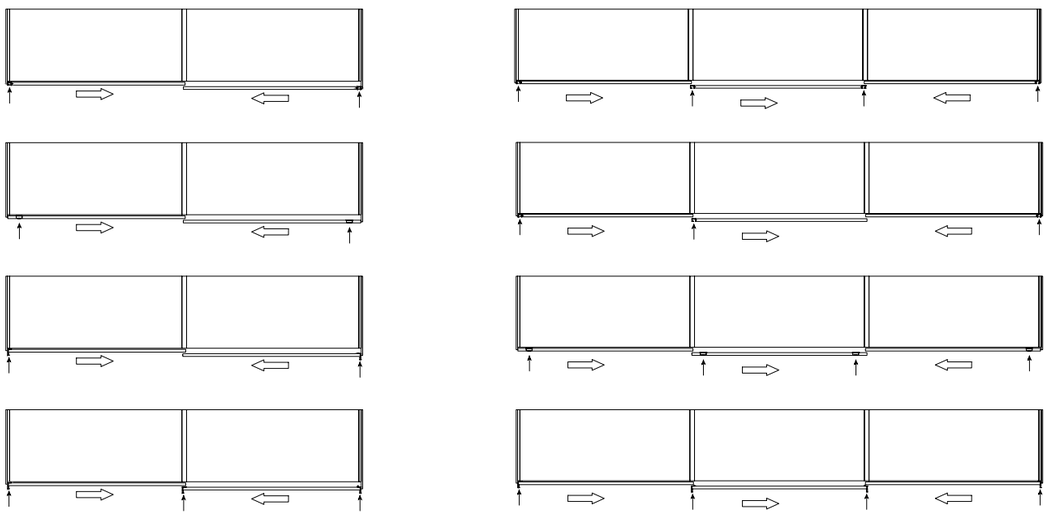

The wardrobe can be reduced in height according to specifications see chapter on Reductions and Supplements pag. 545.

HANDLE POSITION ON SLIDING WARDROBES

Sliding wardrobe with two doors.
Supplied by default with external right door, with one handle mounted on the right and opening on the left.
Upon request, it's possible to have the left external door opening on the right and handle applied on the left.
For double handle on the external door see price at pag. 31.

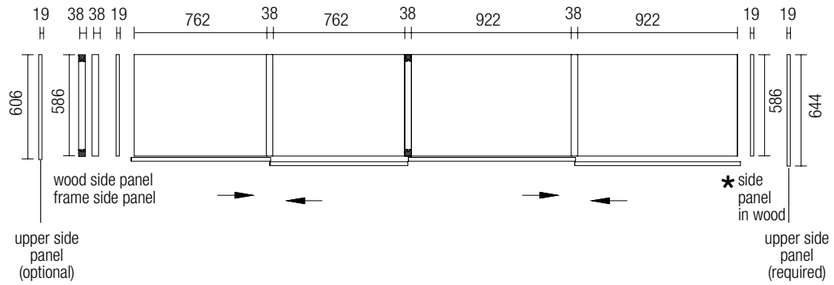

Sliding wardrobe with three doors.
Supplied by default with centre external door, opening on the right and handle on the left.
Central door reverse opening available as an optional.
For double handle on the central door see price at pag. 31.

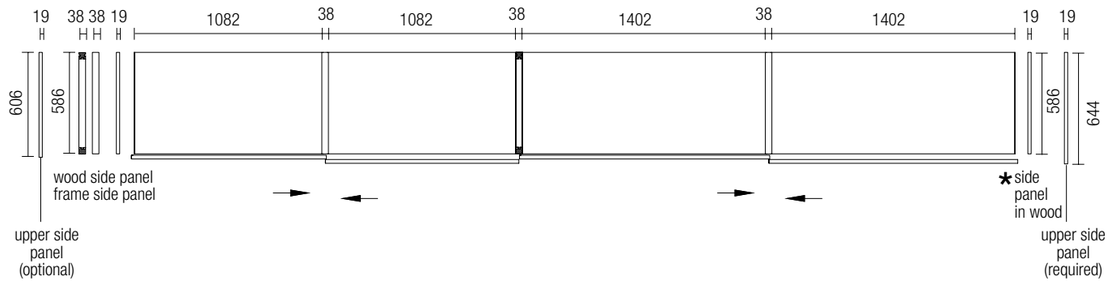

N.B. The Gost handle on the internal door is concealed by the external door.

WIDTH AND DEPTH OF THE SLIDING WARDROBE

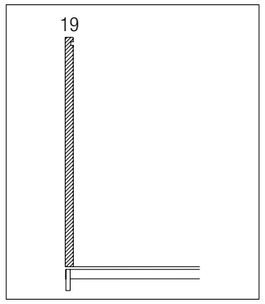

The wardrobe can be reduced in height, width and depth according to specifications; see chapter on Reductions and Supplements pag. 551.
Mountable in recess, see chapter on Reductions and Supplements pag. 545.

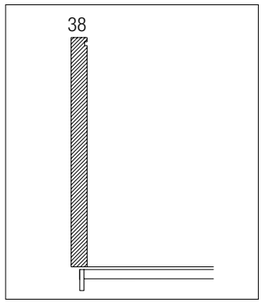

* N.B.: with external doors (beginning / end). The frame side panel can't be inserted.

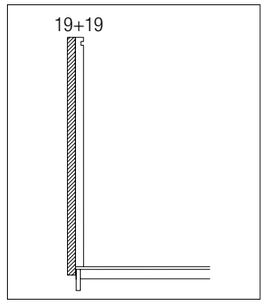

DOOR OVERLAP ON WOOD SIDE PANELS

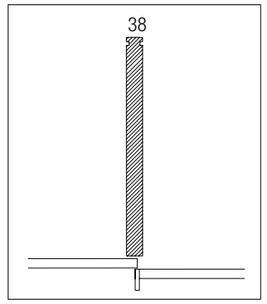

Beginning / end side panel
Th.19mm.
Internal structure in melamine.
External structure in melamine, matt lacquer, glossy lacquer.

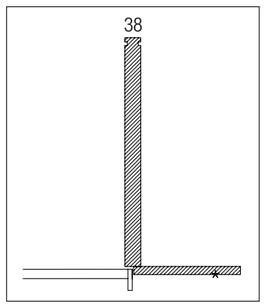

Beginning / end side panel
Th.38mm. in melamine, matt lacquer or melamine internal structure / matt / glossy lacquer external structure.

Finishing upper side panel Th.19mm. (OPTIONAL). To be fixed to the side panel Th.19mm. wood.
Finishing: melamine, matt lacquer, gloss lacquer, wood.

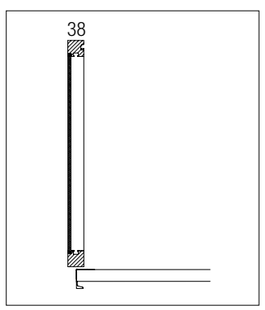

Central side panel Th.38mm.
in melamine, matt lacquer.

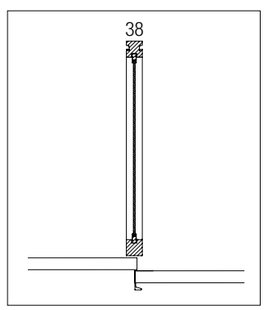

Beginning / end side panel Th.38mm.
in melamine or matt lacquer with
* fixed/extendable infill profile.

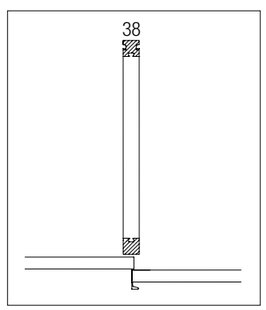

DOOR OVERLAP ON FRAME SIDE PANELS

Beginning/end frame WITH GLASS.

Central frame WITH GLASS.

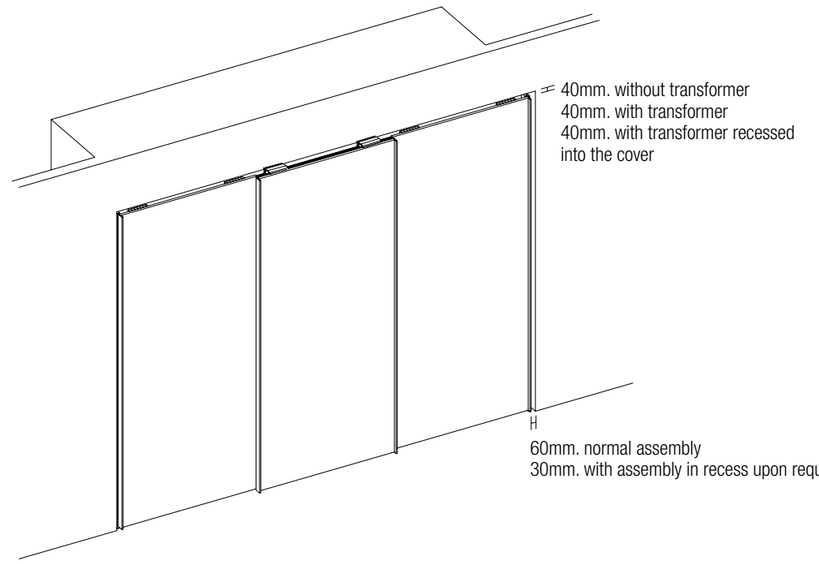

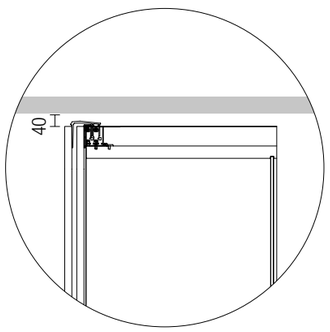

Central frame WITHOUT GLASS.

SLIDING RAILS: Sliding system in anodised aluminium, sliders with two different adjustments, spring loaded damper stops on closing and opening, anti-collision pin, with supplement see pag. 545. Height required: 60mm.

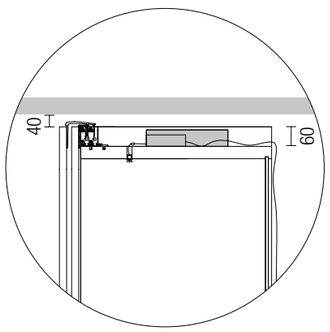

FOR ASSEMBLY: Upper space of 40mm. WITHOUT TRANSFORMER.
Upper space of 40mm. WITH TRANSFORMER for LED LIGHTING SYSTEM ON COVER.
Upper space of 40mm. WITH TRANSFORMER RECESSED INTO THE COVER WITH INSPECTABLE DOOR.
A space of 60mm. must be included on sides.

FOR ASSEMBLY IN RECESS: Upon request, arrangement of one module for assembly in recess, with supplement see pag. 545.
A space of 60mm. must be included on sides.
WE DON'T RECOMMEND ASSEMBLIES IN RECESS INTO COMPARTMENTS WITH DRAWER UNITS INSERTED.

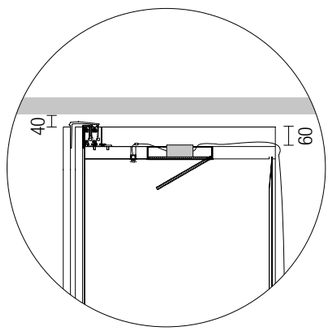

Without transformer

With external transformer

FOR THE WARDROBE COMPOSITIONS

To be added to the modules:

- WOOD SIDE PANEL Th.19 / 38mm. or FRAME Th.38mm. BEGINNING

- WOOD SIDE PANEL or CENTRAL FRAMES Th.38mm.

- WOOD SIDE PANEL Th.19 / 38mm. or FRAME Th.38mm. END

- UPPER SIDE PANELS are recommended for solutions with 3/4 doors and required for solutions with 2 doors (external door side). The 2 doors solution doesn't feature frame end side panels.

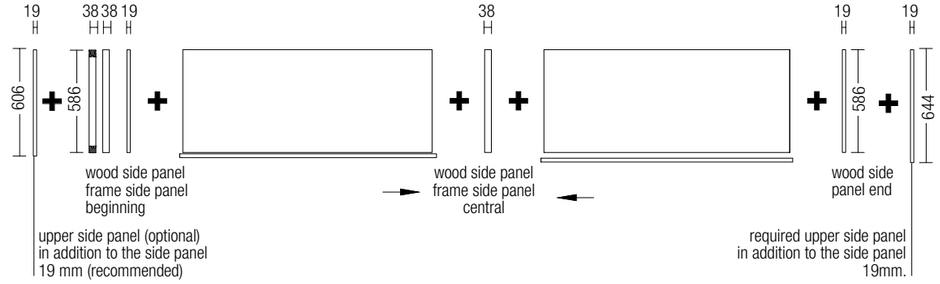

- Add required DOORS.

- HANDLES: every sliding door is equipped with a single handle, see chapter on handles pag. 31.
  Double handle can be mounted on the external door upon request, see chapter on handles pag. 31.

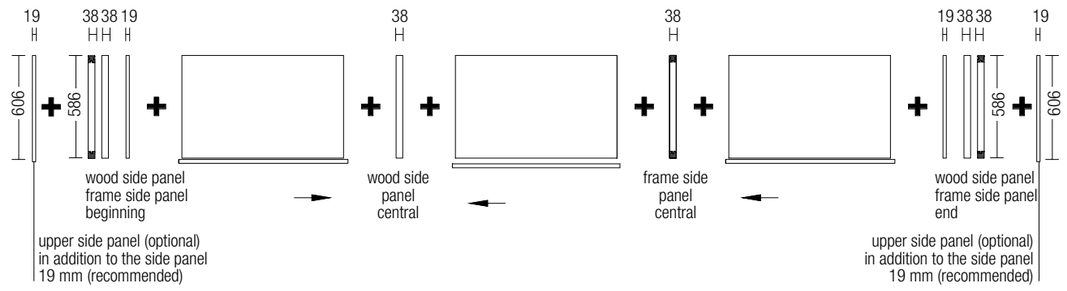

- INTERNAL STRUCTURAL ELEMENTS: see from pag. 218 and chapter on Equipment and accessories starting from pag. 397.

Complete the order by indicating the finishes on the frame, doors, internal equipment, handles and profiles.
N.B.: if the wardrobe ends with Th.19mm. side panel, a shelf must be used inside the column.

EXAMPLE OF ASSEMBLY OF A WARDROBE WITH 2 DOORS

EXAMPLE OF ASSEMBLY OF A WARDROBE WITH 3 DOORS

For internal accessories see from pag. 218 and chapter on Accessories starting from pag. 397.
For reductions see chapter on Reductions and Supplements pag. 545.

designer GIANNI BORGONOVO

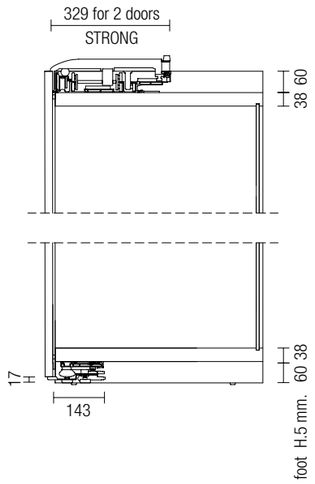

The wardrobe can be reduced in height according to specifications; see chapter on Reductions and Supplements pag. 545.

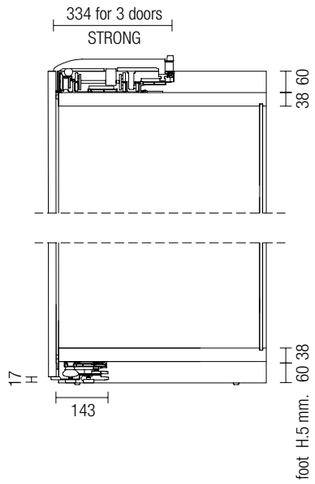

SLIDING CARRIAGES

Flush with 2 doors for mod. 922-1082

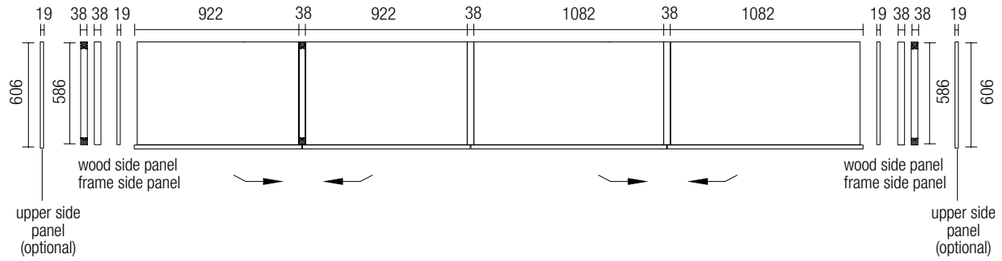

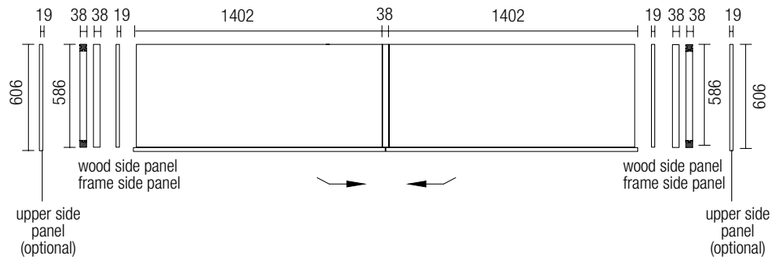

Flush with 2 doors for mod. 1402

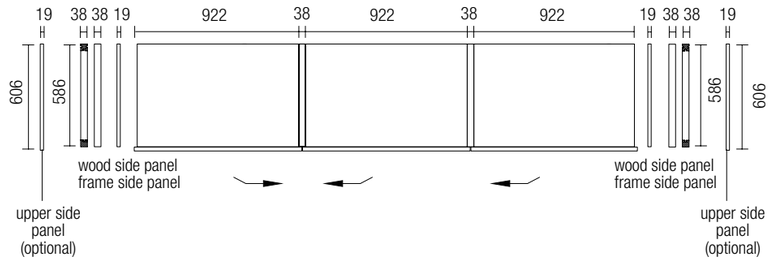

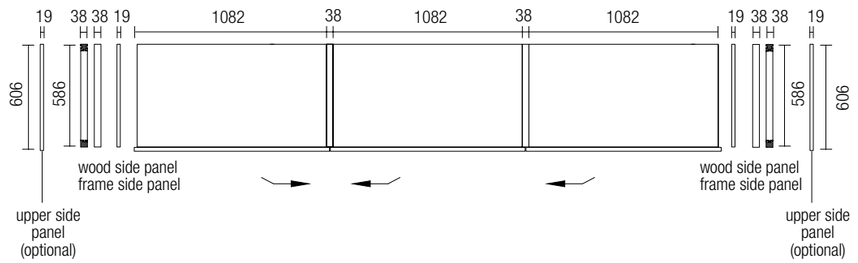

Flush with 3 doors for mod. 922-1082

The wardrobe can be reduced in width and depth according to specifications; see chapter on Reductions and Supplements pag. 545.
Mountable in recess, see chapter on Reductions and Supplements pag. 545.

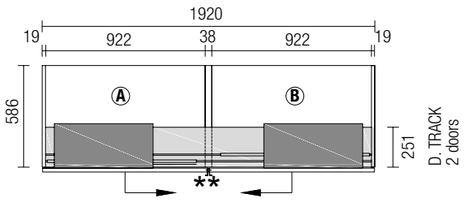

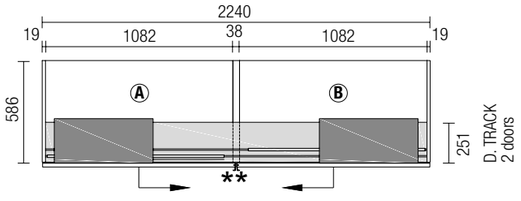

3 door track supplement € 1.093.

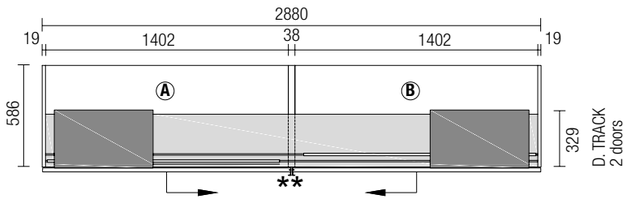

The wardrobe is reduced in width by reducing 2 modules of the same size, with door reduction in width up to min. W.800mm (don't exceed this value). For reductions on structure and doors, see chapter on Reductions and Supplements pag. 545.

N.B. - Special requests that are not included in the price list should be sent to the company to verify their feasibility and price.

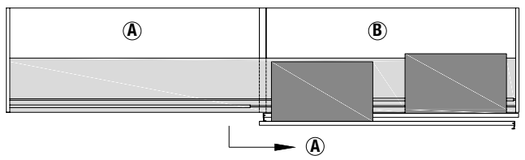

The wardrobe size includes wood side panels Th.19mm.

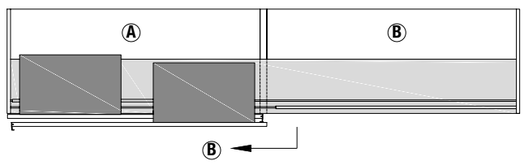

★ **HANDLE POSITION BY DEFAULT**
Handles are positioned by default as shown in the diagram.
For double handle see chapter on Handles starting on pag. 31

▲ **SITUATION WITH OPEN DOORS**

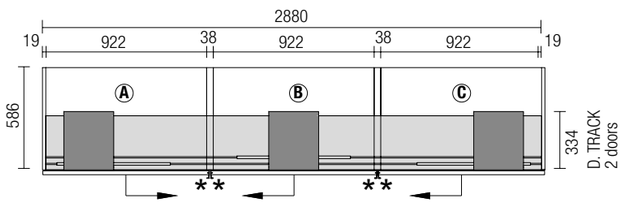

A = TOTAL OPENING

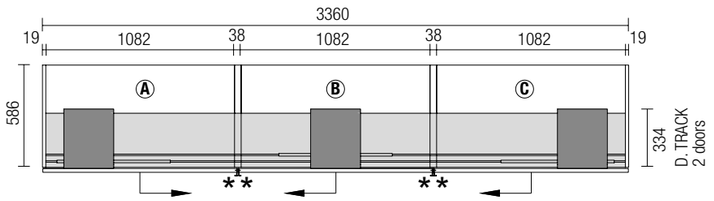

B = TOTAL OPENING

3 door track supplement € 1.093.
The wardrobe is reduced in width by reducing 3 modules of the same size, with door reduction in width up to min. W.800mm (don't exceed this value). For reductions on structure and doors, see chapter on Reductions and Supplements pag. 545.

N.B. - Special requests that are not included in the price list should be sent to the company to verify their feasibility and price.

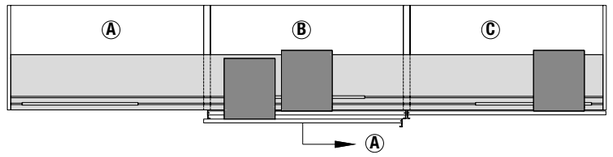

The wardrobe size includes wood side panels Th.19mm.

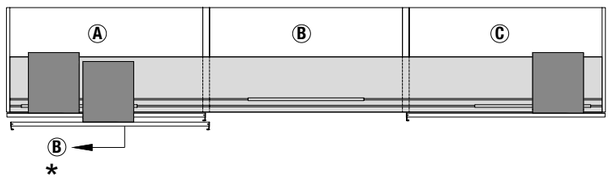

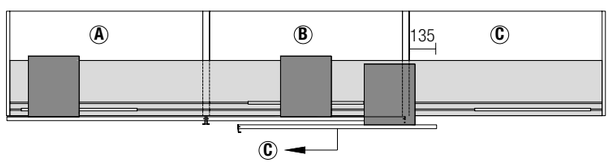

★ **HANDLE POSITION BY DEFAULT**
Handles are positioned by default as shown in the diagram.
For double handle see chapter on Handles starting on pag. 31.

3 door track supplement € 1.093.

▲ **SITUATION WITH OPEN DOORS**
The right door has a 135 mm overlap. Therefore, pull-out elements (drawers, pull down hanging bars, pull-out shelves etc.) can't be inserted.

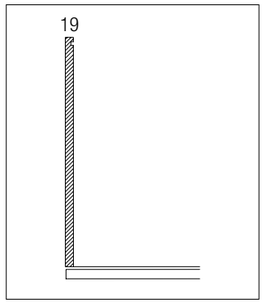

A = TOTAL OPENING

★ **B** = TOTAL OPENING ONLY ON THE LEFT

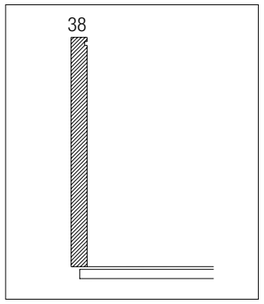

C = PARTIAL OPENING

Beginning/end side panel Th.38mm.
in melamine, matt lacquer or melamine internal structure / matt / glossy lacquer external structure.

Finishing upper side panel Th.19mm. (OPTIONAL). To be fixed to the side panel Th.19mm. wood.
Finishing: melamine, matt lacquer, glossy lacquer, wood.

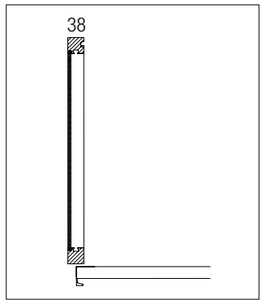

Central side panel Th.38mm.
in melamine, matt lacquer.

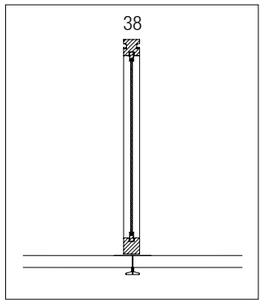

Beginning / end side panel Th.38mm.
* in melamine or matt lacquer with fixed / extendible infill profile.

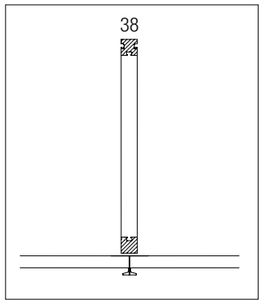

FRAME SIDES

Beginning/end frame WITH GLASS

Central frame WITH GLASS

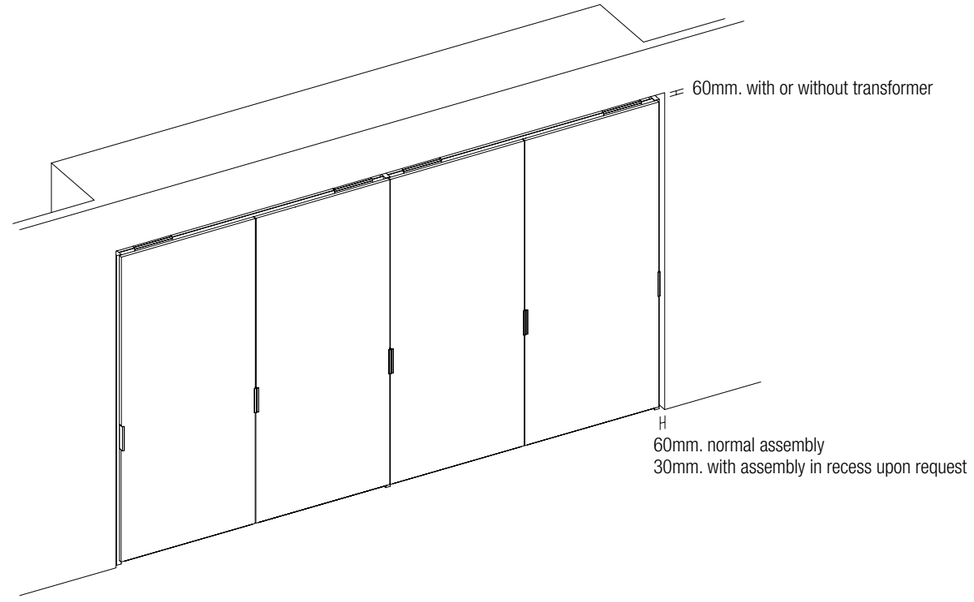

Central frame WITHOUT GLASS

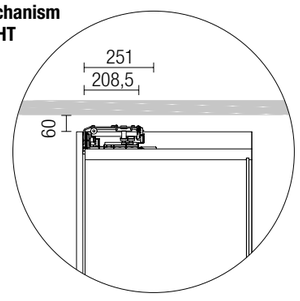

SLIDING TRACKS: Sliding system in anodised aluminium, with magnetic shock absorbers. The shock absorber is loaded with the force applied by a magnet. This interaction allows it to not have a mechanical connection and to be completely silent. Also, the force applied by magnets is constant along the entire track, which prevents jolts and imbalances.

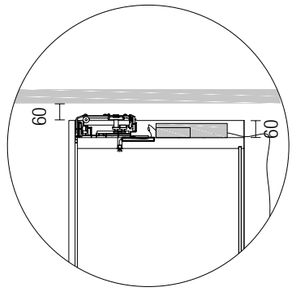

FOR ASSEMBLY: Upper space of 60mm. (WITH OR WITHOUT TRANSFORMER).
A space of 60mm. must be included on sides.

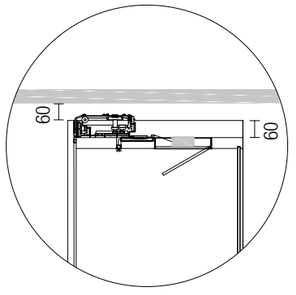

FOR ASSEMBLY IN RECESS: Upon request, arrangement of one module for assembly in recess, with supplement see pag. 545.
WE DON'T RECOMMEND ASSEMBLIES IN RECESS INTO COMPARTMENTS WITH DRAWER UNITS INSERTED.

FOR THE WARDROBE COMPOSITION

To be added to the modules:

- WOOD SIDE PANEL Th.19 / 38mm. or FRAME Th.38mm. BEGINNING

- WOOD SIDE PANELS or CENTRAL FRAMES Th.38mm.

- WOOD SIDE PANEL Th.19 / 38mm. or FRAME Th.38mm. END

- Add optional UPPER SIDE PANELS if desired.

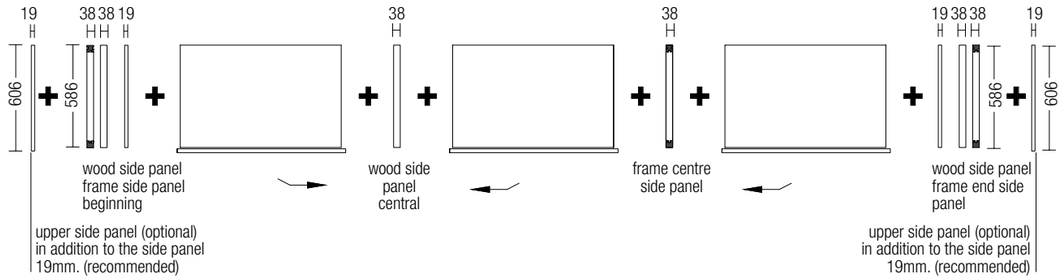

- Add desired DOORS.

- HANDLES: every flush door is equipped with a single handle, see chapter on handles pag. 31.
  Double handle can be mounted upon request, see chapter on handles pag. 31.

- INTERNAL STRUCTURAL ELEMENTS: see from pag. 250 and chapter on Equipment and accessories starting on pag. 397.

Complete the order by indicating the finishes on the frame, doors, internal equipment, handles and profiles.
N.B.: if the wardrobe ends with Th.19mm. side panel, a shelf must be used inside the column.

For 3 door wardrobe sliding track supplement € 1.093.

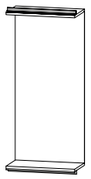

For internal accessories see starting on pag. 250 and chapter on Accessories starting on pag. 397.
For reductions see chapter on Reductions and Supplements pag. 545.
For 3 door wardrobe sliding track supplement € 1.093.

WALL-MOUNTED BRIDGE **D.586**

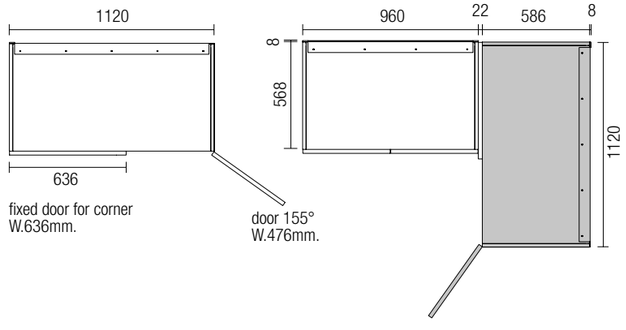

WALL-MOUNTED BRIDGE
A series of containers alongside one another and joined by a support bar underneath, and an upper supporting cross-bar made of aluminium.
Comes with FISCHER Ø 6mm. x 50 TBS anchors for connecting to concrete, hollow brick, or solid brick walls.
The containers are made with reinforced bases and tops, and have an upper profile for connecting to the upper bar.
The loadbearing capacity of the containers is 80 kg plus their own weight (ICQ tests done on a container W.960xD586xH1280 mm), and relates to the type of wall the bridge is mounted on.
Add the price of the handle required.
Each pair of swinging doors is equipped with just one handle on the right-hand door.
Handles can be installed on both doors upon request, see handles chapter on page 31
ZAFFIRO APPLICABLE ON REQUEST HORIZONTAL LED LIGHT see chapter on zaffiro lights pag. 417.
The compartment below can be finished using a wood finishing back (optional).

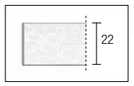

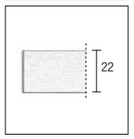

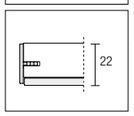

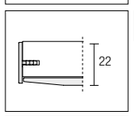

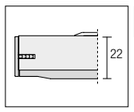

Corner container

Prices listed are for containers with a wood back. For reductions, see the chapter on Reductions and Supplements page 545.

Backs Th.8mm. Prepared for wall mounting using aluminium upper and lower profiles.
Add the pair or profiles for wall mounting and the handles required to the price of the containers.
HORIZONAL LED LIGHT APPLICABLE, see zaffiro lights chapter, page 417.

LED light motion sensor PALO ALTO
- Motion sensors to switch on the lights are recommended on wardrobes with hinged, sliding and flush doors.
- Add a sensor for each module.
- Led lights in Millimetrica compositions DO NOT have the possibility to add motion sensors; in this case radio remote control or controlled socket.
- The motion sensor can be used together with the “portable - wall mounted” remote controls by adding the new “Standard Switch - Wi-Fi Switch” control unit.

60W

CODE	LZSE50
PRICE	156

Portable dimmable radio control
- Each remote control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on PALO ALTO cabins, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor PALO ALTO I-BOX.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

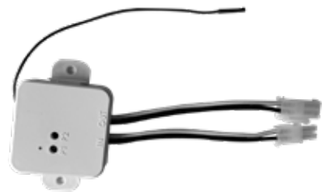

CODE	KRLEDN
PRICE	78

Wall mounted dimmable remote control
- Each radio control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on cabins PALO ALTO, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor PALO ALTO I-BOX.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

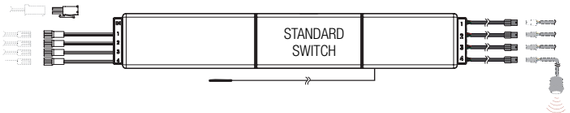

CODE	LZRDP
PRICE	169

Basic control unit
- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled by remote control and there is no possibility of using the sensor.

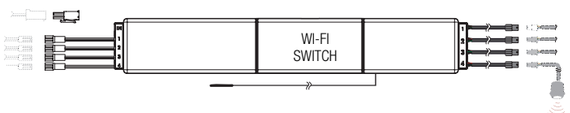

CODE	LZCDB
PRICE	104

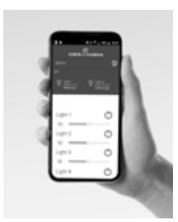

Standard Switch control unit
- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable - wall” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.

CODE	LZCDS
PRICE	254

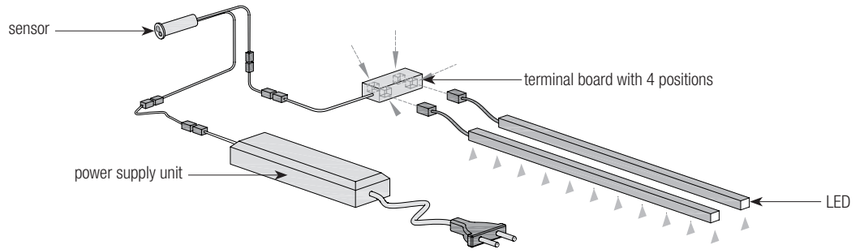

WI-FI Switch control unit
- The Wi-Fi Switch control unit is mandatory when you want to use the electrical system via “portable - wall” radio control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.
- The Wi-Fi Switch has the additional feature of being able to be connected to your device “smatrphone - tablet - voice commands - Google Home - Alexa” for remote use with App Tuya downloadable for free.

Glossy lacquered: Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.

Wood: 53 brushed grey elm, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish.
50 brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
51 brushed black oak, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
66 tobacco,semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
54 eucalyptuscoloured with semitransparent varnishopen pore 6 gloss semi
62 ebonysemitransparent varnishopen pore 6 gloss semimatt acrylic finish
67 noce canaletto, semi-transparent varnish, open pore 6 gloss acrylic finish.

Glass/Mirror: Melamine faced panel with glass or mirror applied,
profile Th.2mm. in drawn aluminium.

Eco-leather/leather: Melamine faced panel with eco-leather or leather applied.

Tecnomarble: Melamine faced panel with porcelain tiles applied Th.6mm., color T01 Calacatta Smooth grey veining, T02 Calacatta Oro, T03 Dream Arabesque, T05 Sahara Noir

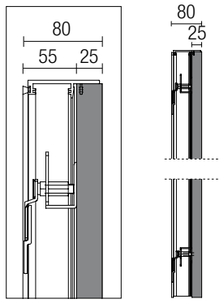

panelling "80"

designer M. LIPPARINI

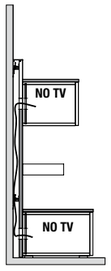

System of panels made of wood composite, thickness 25mm. (total Th.80mm). The space between wall and panel (52mm.) can be used for the passage of electrical wiring. Floor solutions with push rods (H.6mm.) to regulate height, installed on cabinets, wall units, TV holders, and shelf brackets, and fitted between cabinets. Developed in a vertical or horizontal position. Around the edge of the panelling, this piece is finished with aluminium infill profiles varnished in matt lacquer, gun metal or titanium, or with a varnished recessed rear profile, as a casing for LED strips that create diffused light at temperature of 3000K. The electrical system is housed in the space between the panel and the wall. The lights are turned on with a radio remote control device, with dimmable light controls. All electrical systems are provided pre-wired in compliance with current laws. Wall-mounting hardware in steel and aluminium (UNI6060).
A minimum space of 40mm. over the panelling is required for mounting.

ON THE FLOOR WITH CROSSING BOOKCASE

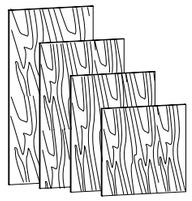

LED WALL UNIT WITH LED ALUMINIUM SHELVES

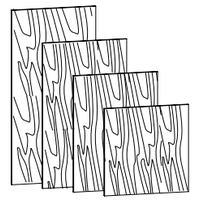

BUILT-IN

Floor-standing panelling with H. measurement comprehensive of push rod for regulating height (H.6mm).
VERTICAL grain for wood and tecnomarble finishes.
To the price of panelling, add the price of infill profiles, see page 520.
To use as a TV PANEL calculate the supplement for the cableway hole, see page 520.

For width and height reductions, see Reductions and Supplements from p. 547.

panelling "00"

designer M. LIPPARINI

System of panels made of wood composite, Th.22mm. (total Th.38mm.), fitted with regulators for alignment with the wall.
To use where there will be no electrical cables.
These panels can be positioned on the floor with H.6mm push rods to regulate height, or supported by cabinets / wall units.
Suitable for covering walls, hanging cabinets and shelves (see grid). Developed in a vertical or horizontal position.
Wall-mounting hardware in steel and aluminium (UNI 6060).
A minimum space of 40mm over the panelling is required for mounting.

Touch Kit

- n°1 Touch Kit for each transformer as an alternative to the radio remote control unit or the switch, to position on a side panel of the composition,
  max 1 touch kit per side panel.

CODE	**TOUCH**
PRICE	341

Portable dimmable radio control

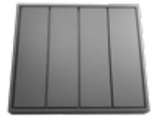

- Each remote control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on Panelling, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor Panelling.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

CODE	**KRLEDN**
PRICE	78

Wall mounted dimmable remote control

- Each radio control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on Panelling, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor Panelling.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

CODE	LZSE50
PRICE	156

Basic control unit

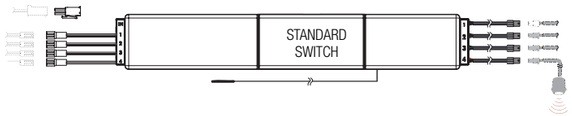

- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled by remote control and there is no possibility of using the sensor.

CODE	LZCDB
PRICE	104

Standard Switch control unit

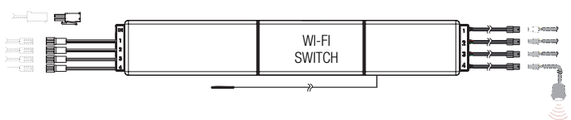

- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable - wall” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.

CODE	LZCDS
PRICE	254

WI-FI Switch control unit

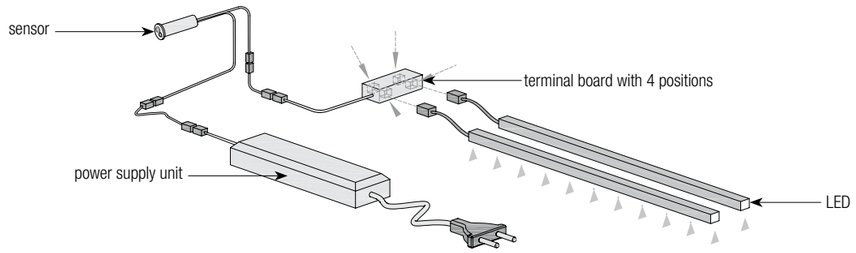

- The Wi-Fi Switch control unit is mandatory when you want to use the electrical system via “portable - wall” radio control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.
- The Wi-Fi Switch has the additional feature of being able to be connected to your device “smatrphone - tablet - voice commands - Google Home - Alexa” for remote use with App Tuya downloadable for free.

system layer

designer CR&S MISURAEMME

LAYER SYSTEM

FINISHES

A system of sliding or wall-mounted panels to separate two rooms or to close in the spaces of a walk-in wardrobe.
They can even be used to close a door passage.
The system is made up of one or two-way aluminium tracks mounted on the ceiling or recessed into a false ceiling, on which the fixed or sliding panels are mounted.
Doors and fixed panels are made of aluminium frames with tempered glass/mirror panels available in different finishes.
A guard in aluminium finish is fixed to cover the tracks.
The system is supplied complete with sliding carriages, closing and opening stops, a lower rail to fasten to the floor (there are no floor-mounted tracks).
Each order is dimensioned to fit the client's needs, and comply with weight limits and possible limits in measurements.
The maximum height obtainable is 3000mm, including the track, and 1300mm in width.
The maximum free opening space obtainable is the total width of two doors.
The handle is applied in correspondence with the door opening, on both the exterior and the interior, in the same finish as the frame.

LAYER SYSTEM

TECHNICAL NOTES

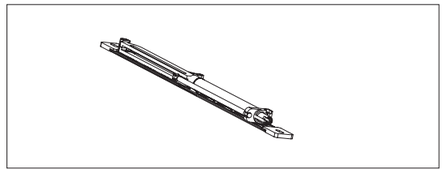

Sliding panels
These panels are constrained to the floor with a sliding pin, and anchored to the track with the carriages. Couplers allow the panel height to be adjusted by ± 7 mm.
Fixed panels
These panels are fastened to the floor and the track. Their weight is not supported by the track. Couplers allow the panel height to be adjusted by ± 7 mm.

Note: Standard wall anchors are supplied to fasten the tracks. The quality of mounting remains the client's responsibility. The client must use the best systems for the type of walls/ceilings that the system is fastened to.

Handle

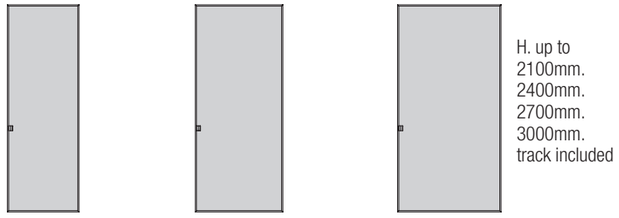

Shock absorbers
Slow the opening and closing movement of the panel

LAYER SYSTEM
