Price list multiplier
x 1,1

To obtain the price in **€ (euro)** use the points on the price list and multiply them by the above mentioned index. **VAT excluded**
*The multiplier is not valid for products with value expressed in **net price**.*

GENERAL SALES CONDITIONS

- 1

PRICE LIST
This price list invalidates and replaces previous price lists for all intents and purposes.
For shipping costs please refer to the established sales conditions.
Prices do not include project design, shipping to the final buyer's location or installation at the final buyer's location.
The list prices are approximate, only. The final price is the one specified on the order confirmation.
MisuraEmme reserves the right to effect any changes it considers appropriate, at any time and without prior notice.
- 2

CONDITIONS
The delivery dates indicated on the order conformation are only approximate and not binding.
We allow up to 6 days from the date of order confirmation to make changes to orders in progress.
After this time, since we presume that the order has entered the production phase, there will be an additional charge for any modifications: 30% of the amount of those items which have already been manufactured - completely or even partially.
The customer agrees to check the availability of low inventory or discontinued products before placing an order.
- 3

COMPLAINTS AND RETURNS
Any complaint regarding the goods must be received within 6 days from when the goods are received, and must be accompanied by the quality control document included in the package/crate, and pictures showing the source of the complaint.
The customer may return goods only after receiving prior authorisation in writing from MisuraEmme.
The goods must be properly packed and/or crated before being returned.
Returns are not accepted unless expressly authorised in writing and free of charges at our headquarters.
- 4

PACKAGING
Packing in cardboard boxes is included in the price.
Requests for packing in wooden crates will be subject to a 10% surcharge for a minimum net amount of € 300.
Items made of crystal glass and items in marble are packed precisely and reliably.
- 5

TECHNICAL NOTES
The measurements indicated are in mm.
The technical specifications on the price list are approximate and not binding.
Samples of finishes and wood, fabric and leather are not binding and only indicative.
Laquer covers may show variations in shade from one lot to another.
Scars, insect bites, wrinkles and veins are natural characteristics of authentic leather.
These marks are proof that this product is made of real leather, and should not be considered as defects.
It is technically impossible to guarantee that colours will not change over time or vary from one production lot to another.
Over time, the appearance of wood finishes may change due to exposure to light and ageing of the material.
The buyer accepts such tolerances upon order confirmation.
- 6

CUSTOM SIZES
Upon the customer's special request, the company can supply items in custom sizes, which are obtained by reducing one or more dimensions of standard articles.
When this is done, the company reserves the right to apply a surcharge on the listed price, calculated on the basis of the number of cuts made on the product and on the need for completing additional processing according to a technical drawing.
- 7

PAYMENTS
The amount shown on the order confirmation is the amount that must be paid.
Any discounts agreed upon must be specified on the order confirmation.
If a payment is not honoured by the bank, the relative bank fees must be paid by the buyer, and the prices on the price list - and not those agreed upon with the customer - will be applied.
If payments are late, MisuraEmme may ask to be compensated for the damage suffered plus the interest described in Ital. Legis. Decree 231/02. 231/02.
All goods shall remain the property of MisuraEmme until paid for in full.
If goods are sold by buyers to third parties before payment to MisuraEmme, credit rights are intended transferred to MisuraEmme.
- 8

EXCLUSIVE JURISDICTION
The contract is governed by Italian Law.
Any dispute between the parties regarding the interpretation, stipulation, execution and/or validity of the contract will be adjudicated exclusively before the Court of Como, Italy; however, the company may have the right to join the buyer's forum.

PALO ALTO I-BOX

GENERAL TABLE

TECHNICAL DESCRIPTION OF FINISHES

Melamine finish: wood particleboard, in the finishes: 840 metallic graphite, 841 metallic champagne, 842 metallic dark bronze, 853 tobacco, 866 cenere, 878 elm tranché grey, 885 primo fiore.

Matt lacquer: Closed pore water-based 12 Gloss semi-matt pigmented varnish.

Glossy lacquered: Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.

Wood: 50 brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
51 brushed black oak, coloured with black varnish, open pore 6 gloss semi-matt acrylic finish.
53 brushed elm grey, coloured with grey varnish, open pore 6 gloss semi-matt acrylic finish.
54 eucalyptus, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
62 ebony, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
66 brushed tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
67 noce canaletto, semi-transparent varnish, 6 gloss semi-matt acrylic finish.

Glossy wood: L51 brushed black oak, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
L53 brushed elm grey, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish.
L54 eucalyptus, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
L62 ebony, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
L66 tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.

Tecnomarble: Porcelain tiles Th.6mm.

It is technically impossible to guarantee that colours will not change over time or vary from one production lot to another on parts in lacquered wood, glass or painted glass. Over time, the appearance of wood finishes may change due to exposure to light and ageing of the material. therefore colour variations should not be considered as defects, but as proof of the use of natural materials and authentic artisan processes.

TECHNICAL DESCRIPTION OF FINISHES

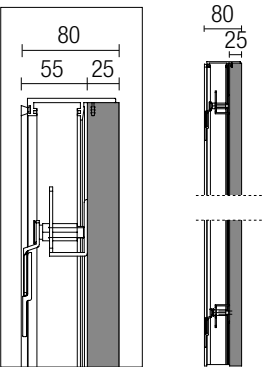

Melamine finish:	Panel of particle wood coated in melamine. 840 metallic graphite, 841 metallic champagne, 842 metallic dark bronze, 853 tobacco, 866 cenere.
Matt lacquer:	Closed pore water-based 12 Gloss semi-matt pigmented varnish.
Glossy lacquered:	Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.
Wood:	53 brushed grey elm, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish. 50 brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish. 51 brushed black oak, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish. 66 tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
Glass/Mirror:	Melamine faced panel with glass or mirror applied, profile Th.2mm. in drawn aluminium.
Eco-leather/leather:	Melamine faced panel with eco-leather or leather applied.
Tecnomarble:	Melamine faced panel with porcelain tiles applied Th.6mm., color T01 Calacatta Smooth grey veining, T02 Calacatta Oro, T03 Dream Arabesque, T05 Sahara Noir

panelling
"80"

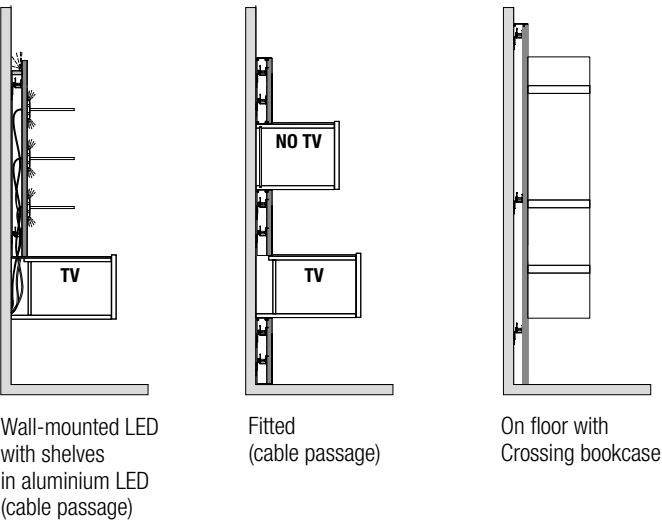

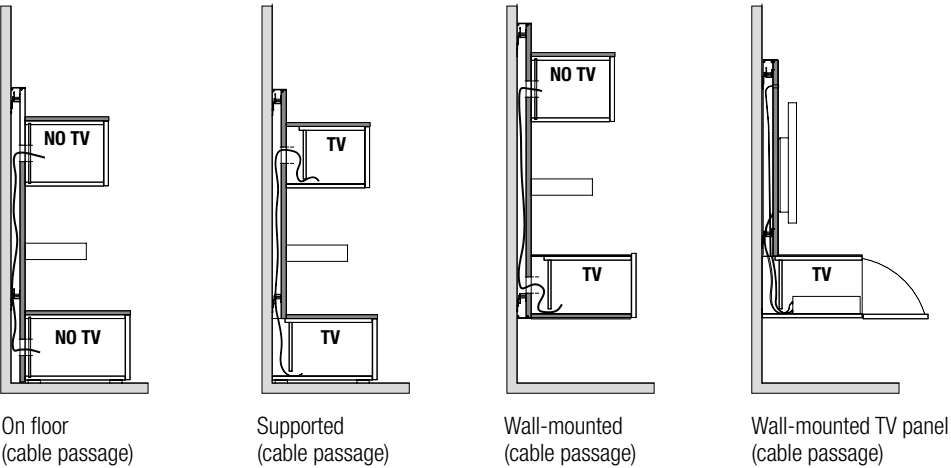

designer M. LIPPARINI

System of panels made of wood composite, thickness 25mm. (total Th.80mm). The space between wall and panel (52mm.) can be used for the passage of electrical wiring. Floor solutions with push rods (H.6mm.) to regulate height, installed on cabinets, wall units, TV holders, and shelf brackets, and fitted between cabinets. Developed in a vertical or horizontal position. Around the edge of the panelling, this piece is finished with aluminium infill profiles varnished in matt lacquer, gun metal or titanium, or with a varnished recessed rear profile, as a casing for LED strips that create diffused light at temperature of 3000K. The electrical system is housed in the space between the panel and the wall. The lights are turned on with a radio remote control device, with dimmable light controls. All electrical systems are provided pre-wired in compliance with current laws. Wall-mounting hardware in steel and aluminium (UNI6060). A minimum space of 40mm. over the panelling is required for mounting.

panelling

"00"

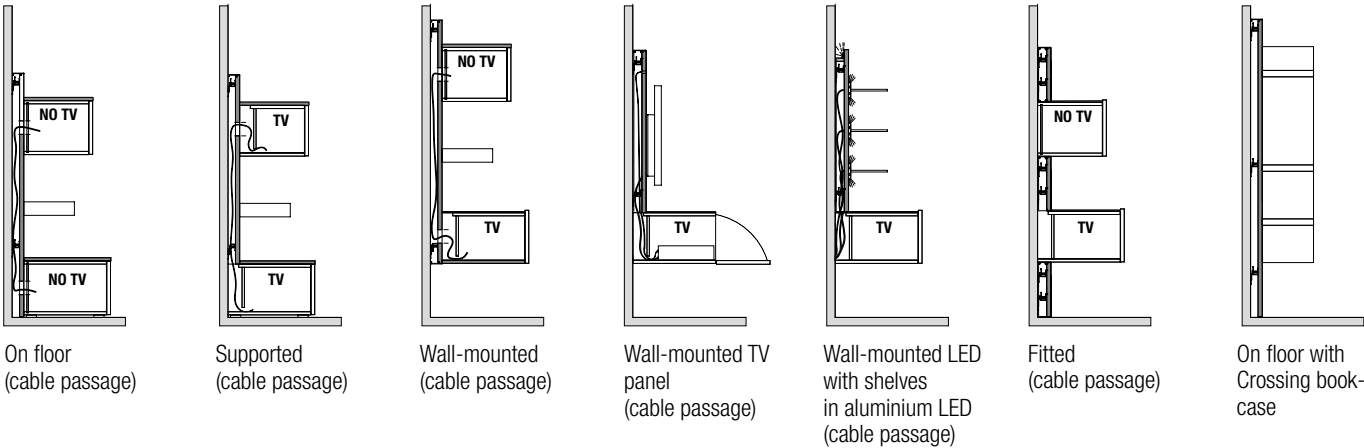

designer M. LIPPARINI

System of panels made of wood composite, thickness 25mm. (total Th.80mm). The space between wall and panel (52mm.) can be used for the passage of electrical wiring. Floor solutions with push rods (H.6mm.) to regulate height, installed on cabinets, wall units, TV holders, and shelf brackets, and fitted between cabinets. Developed in a vertical or horizontal position. Around the edge of the panelling, this piece is finished with aluminium infill profiles varnished in matt lacquer, gun metal or titanium, or with a varnished recessed rear profile, as a casing for LED strips that create diffused light at temperature of 3000K. The electrical system is housed in the space between the panel and the wall. The lights are turned on with a radio remote control device, with dimmable light controls. All electrical systems are provided pre-wired in compliance with current laws. Wall-mounting hardware in steel and aluminium (UNI6060). A minimum space of 40mm. over the panelling is required for mounting.

panelling

"00"

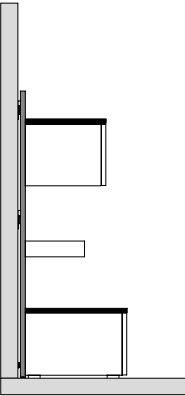

designer M. LIPPARINI

System of panels made of wood composite, Th.22mm. (total Th.38mm.), fitted with regulators for alignment with the wall.
To use where there will be no electrical cables.
These panels can be positioned on the floor with H.6mm push rods to regulate height, or supported by cabinets/wall units.
Suitable for covering walls, hanging cabinets and shelves (see grid). Developed in a vertical or horizontal position.
Wall-mounting hardware in steel and aluminium (UNI 6060).
A minimum space of 40mm over the panelling is required for mounting.

To use as upper finish of one or more base containers or TV hanging containers. Not suitable for standard hanging containers, up to max. length of 2880mm.

TOPS Th. 6 mm for protruding fronts.

To use as upper finishing of one or more containers up to a max. length of 2880mm.
WOOD: Layered in MDF and aluminium Th.6mm.
GLASS: Extralight tempered glass Th.5mm block on cabinets with round die-cut transparent urethane roll stock ø20.
TECNOMARBLE: Porcelain tiles Th.6mm.

WOODEN FRONTS

Melamine faced wood particleboard panel, Th. 22mm with melamine synchro-pore finish.
Wood particleboard panel, class E1 th.22mm, in lacquered finish or wood veneer.
Edge in ABS or wood Th.1mm.

FRONTS PROFILE “0”

Melamine panel th.19mm.	with applied tempered glass, th.4mm, or mirror, with applied leather, with applied eco-leather, with applied Tecnomarble, with applied wood panel:
-------------------------	--

Profile th.2mm. in drawn aluminium satined, gun metal or gesso finish.

HINGED GLASS DOOR WITH FRAME

Not available in the version with PROTRUDING opening.
Extruded aluminum frame finish 524 Gun metal
Tempered glass Th.4mm.

HINGED AND FLAP DOOR “NARCISSE DAY”

Not available in the version with PROTRUDING opening.
Th.22mm. Metal frame in gun metal finish, dedicated handle. Tempered glass.

DRAWERS STRUCTURE

Wooden agglomerate panel class E1 th.14mm covered in paper finish 885 Primo Fiore.
Drawer bottom: wooden agglomerate panel class E1 th.8mm covered in paper finish 885 Primo Fiore.

BASE UNITS WITH FEET H.165

In painted metal with feet in satined nickel or painted gun metal, fitted with level regulator.

ALUMINIUM SHELVES

Made in anodised drawn aluminium (UNI 6060), gun metal or matt lacquered finish.
Joints in die-cast Zamak. Hardware for wall mounting in steel.

ELEMENTS Th.80mm.

Hollow. Frame in wood particleboard and cover in wood particleboard Th.8mm.
Edges in plastic Th.1mm.

All electrical systems are provided pre-wired in compliance with current laws.

HARDWARE

TV frame in steel with an epoxy enamel finish. Assembly of cabinets D.384 glued, cabinets D.490 with bushings, pins and eccentrics.
Feet: H.15mm, in plastic material, adjustable in height.
Hinges: in steel, with soft closing mechanism, or with spring-latch opening (for push opening system).
Push in plastic material with spring piston.
Hinged doors "Narcisse Day" with 2 hinges applied on base and top shelf.
Flap doors Down and Up: mechanism in metal with plastic cover, steel cable with spring-latch for opening and closing. Push in plastic material with spring piston.
Drawers' runners: in steel, invisible, fitted on ball bearing. (weight capacity Kg 10). Soft closing with piston, or with spring-latch opening.
Handle Regula and Rod: in brushed drawn aluminium, varnished gun metal or O..lacquered in range colours (with surcharge €54).
Door profiles: in drawn aluminium (UNI 6060) varnished, gun metal or O..lacquered in range colours (with surcharge €108).

TECHNICAL DESCRIPTION OF FINISHES

Matt lacquered:	Closed pore water-based 12 Gloss semi-matt pigmented varnish.
Glossy lacquered:	Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.
Wood:	50 brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish. 51 brushed black oak, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish. 53 brushed elm grey, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish. 66 tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
Melamine:	wood particleboard, in the finishes: 840 metallic graphite, 841 metallic champagne, 842 metallic dark bronze, 853 tobacco, 866 cenere, 878 elm tranché grey, 877 ambience. Internal / external containers in the same finish. 841 Metallic Champagne internal finish for containers in lacquered or wood.
Tecnomarble:	Porcelain tile th.6mm. colour T01 Calacatta Smooth (grey veining), T02 Calacatta Oro, T03 Dream Arabesque and T05 Sahara Noir.

TV containers

The removable back panel th.14mm grants access to a 60mm hollow space on the rear side for the passage of cables.

On hanging TV containers, besides the removable back panel, the rear side is equipped with the frame fixture as well as with the bar for wall fitting.

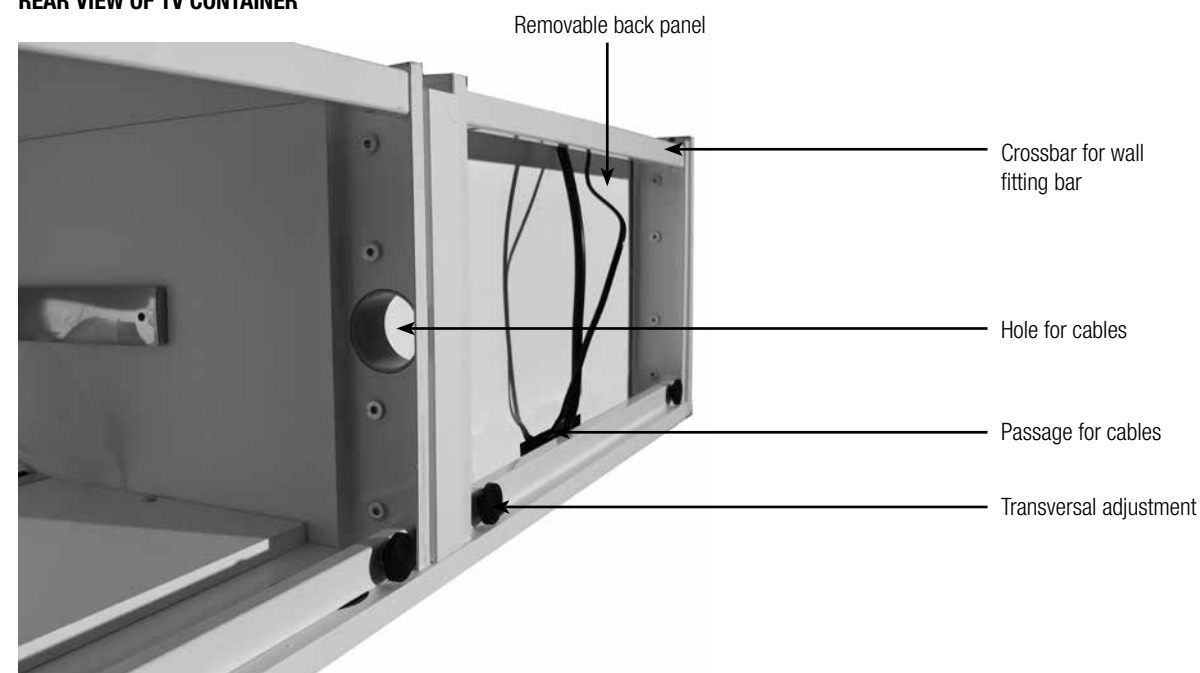

Frame and bar are varnished epoxy white.

Each compartment of the cabinet has a frame and removable back held with magnets Th.14mm, of which one has a standard cableway.

The weight capacity of each frame fixture is 150kg.

Once fixed the back panel, frame fixture, adjustment screws, and cables remain all hidden.

To complete the unit, a finishing top must be positioned on the container, eventually provided with passage for cables to access the hollow space on the rear side.

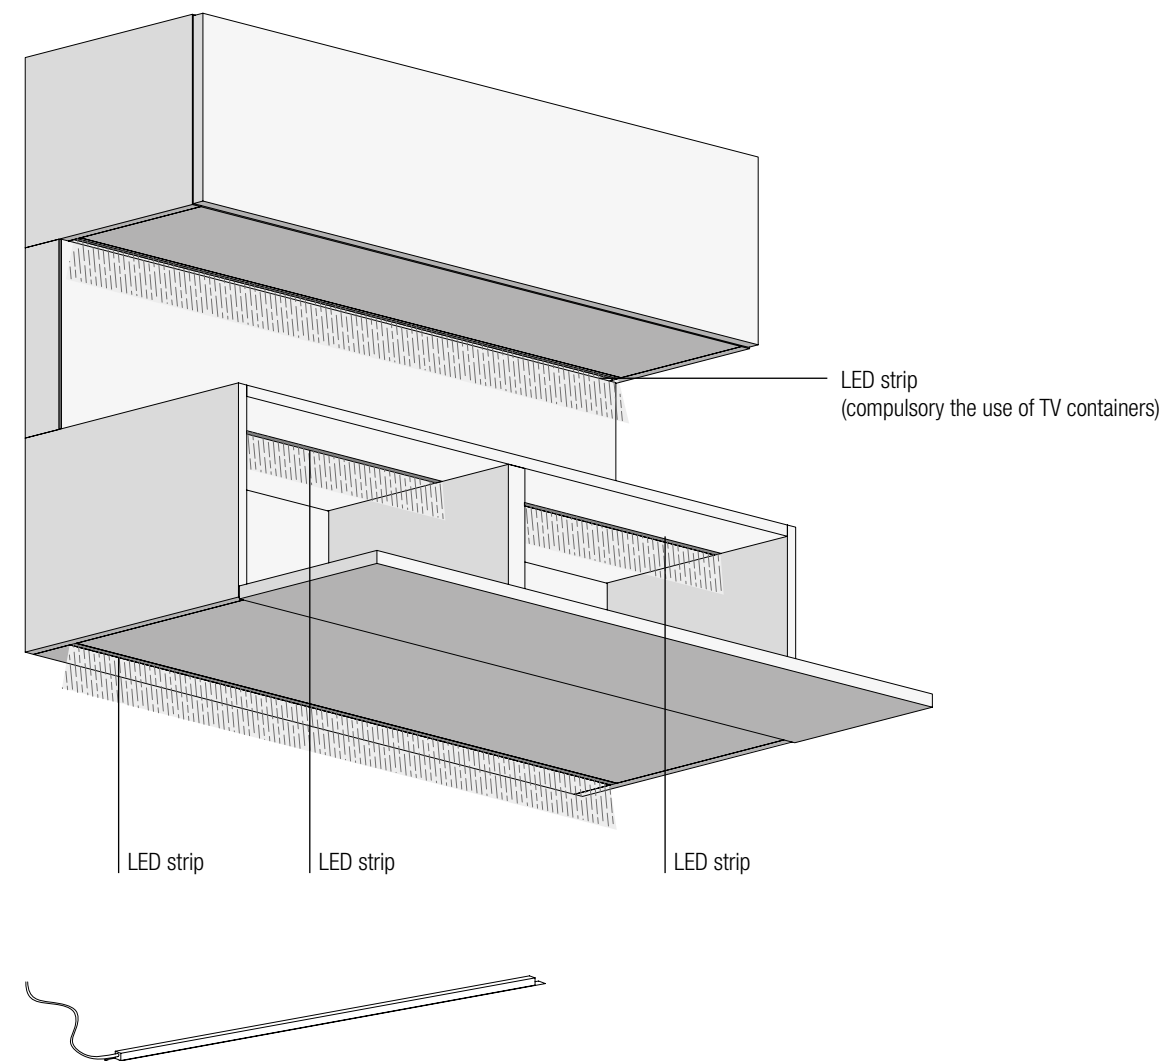

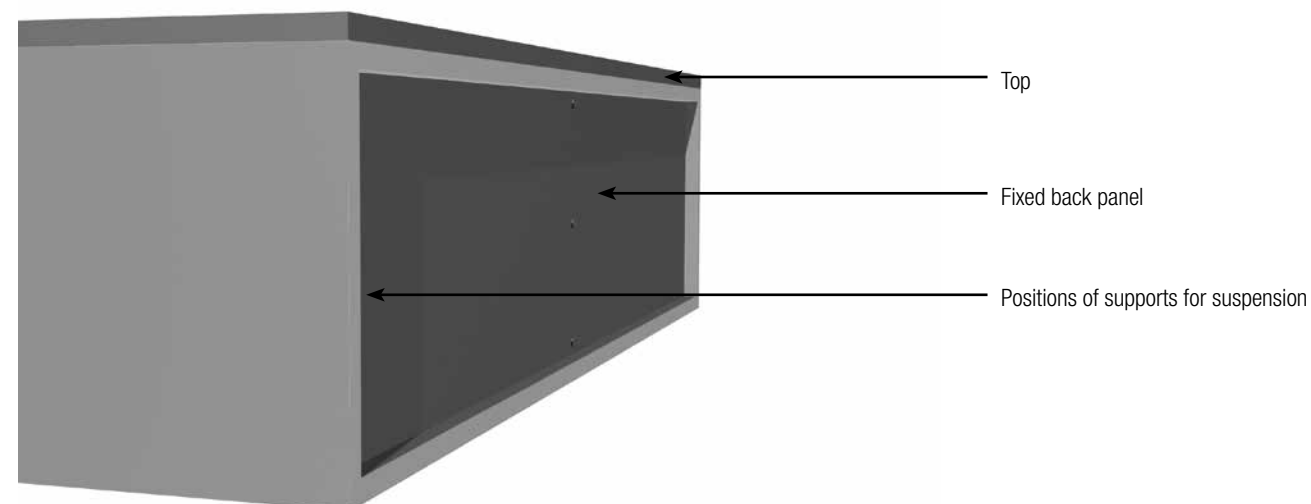

REAR VIEW OF TV CONTAINER**Standard containers**

Equipped with a fixed back panel th.8mm.

The hanging containers D.384mm are provided with a mechanism of wall fitting, adjustable from the inside of the container.

The holes for adjustment are closed with caps in plastic material.

The vertical weight capacity of the fixtures is Kg 50 each.

REAR VIEW OF STANDARD TV CONTAINER**Cabinet lights****LED horizontal lighting**

LED light recessed into the lower part of the cabinet

- All lights have a temperature of 3000K.
- In columns reduced in width, dimensions of lamps correspond to the lower measurement.

**Portable dimmable radio control**

- Each remote control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomando is recommended on TAO day system, when it is not possible to wire the lighting with the system Housing (no controlled socket) or as an alternative to the motion sensor TAO day system.
- A "Basic - Standard Switch - Wi-Fi Switch" must be added to the remote control.

**Wall mounted dimmable remote control**

- Each radio control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomando is recommended on TAO day system, when it is not possible to wire the lighting with the system Housing (no controlled socket) or as an alternative to the motion sensor TAO day system,.
- A "Basic - Standard Switch - Wi-Fi Switch" must be added to the remote control.

Hinges for doors with handle / for doors with push-opening

In steel, with accelerating effect on push-opening.
Easy and quick assembling; personalized covering cap.
Can be adjusted in the three directions.

Rails for drawers with handle

In steel, with ball-bearing movement and soft-closing mechanism.
Runners are invisible as fitted underneath the drawer.
Can be adjusted in height. On hanging containers drawers move on completely extractable runners.

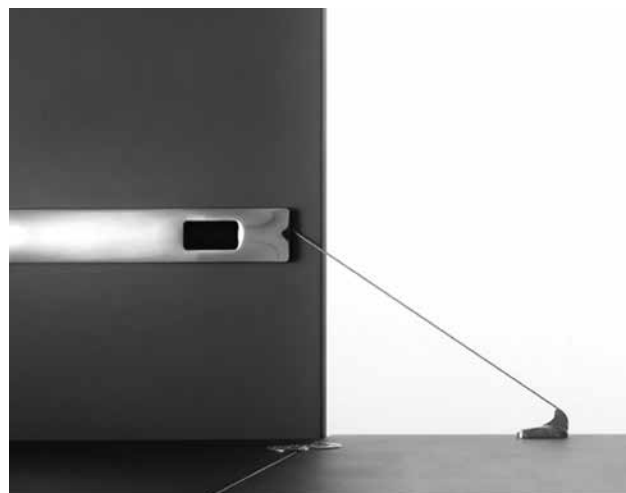

Rails for drawers with push-opening

In steel, with ball-bearing movement and accelerating effect on push-opening. Runners are invisible as fitted underneath the drawer.
Can be adjusted in height. Push piston fitted on the rail. On hanging containers drawers move on completely extractable runners.

Flap UP Mechanism

In aluminium alloy with cover in plastic material finish champagne.
Equipped with soft closing device.
Position of open door and piston strength can be regulated.

Flap DOWN mechanism

Semi built-in case with cover in plastic material finish ambience.
Steel cables with soft-closing device.
Position of open door and cable strength can be regulated.
Personalized covering cap.

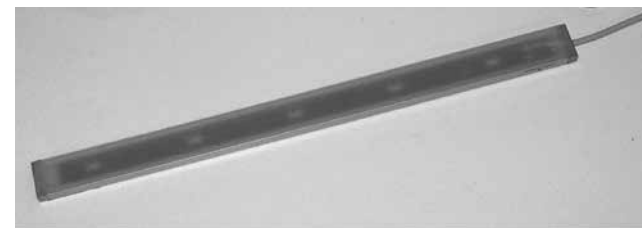

Hinge for NARCISSE DAY door

Hinged door system comprising 2 hinges applied on base and cover with soft-closing shock absorption system.

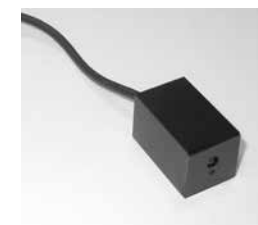

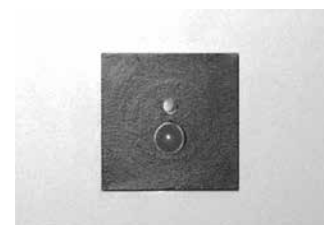

Hinge for NARCISSE DAY DOWN flap door

Recessed hinge for Down opening flap doors.
Dedicated for NARCISSE DAY door frames.

IR

New system with receiving bar for infrared signals of HI-FI devices placed inside a container.
The bar is positioned inside every unit, and receives the signal of every HI-FI element through a receiver positioned on the TV panel.
It is prepared for connection to another device to be placed in an adjacent unit. It is universal and suitable for all types of audiovisual equipments and decoders.

Mobile phone induction battery charger

Phone recharging system designed with induction technology.
Usable on shelves Th.38mm.
Recessed with position shown in drawing.

Recessed USB socket

Built in USBx2 connector.
Usable on shelves Th.38mm and backs Th.14mm.
Positionable as drawn.
Sliding aluminium cover.

Cableway ø60mm.

Can be used on shelves and bookcase covers.
Varnished gun metal.
Position to define on the order.

Panels thickness 22mm.

It is possible to create two-sided base containers, fitted with fake wooden drawers or doors.

Back of the container can be in a mirrored version of the front, or as per client's request.

Add to the price of the panel the cost of the handles if required.

For two-sided containers, use of top with special depth is compulsory.

Supplement for reductions, see page 336.

MELAMINE VERSION

SIDES – BASES – SHELVES – WALL SHELVES Th.38mm.

Wood particleboard th.38mm in melamine finish.
Edges th.1mm in ABS in the same finish as the panel.

LACQUERED VERSION

SIDES – BASES – SHELVES – WALL SHELVES Th.38mm.

Wood particleboard th.38mm in lacquered finish.
Edges th.2 mm in ABS in the same finish as the panel.

WOOD VERSION

SIDES – BASES – SHELVES – WALL SHELVES Th.38mm.

Panel Th38mm. in poplar blockboard with three crossed layers and two surface layers of MDF panel th.38mm.,
Wood veneer
Visible edges Th.2mm, wood.
Non-visible edges in ABS or in 1mm wood.

TOPS

Wood particleboard th.19mm in melamine, lacquered finish or wood.

RASTER INSERTION Th.14mm.

Series of sides and shelves in MDF, Th14mm.
Shelves with back panels with or without lights, including aluminum profiled cover, with fasteners for the back and LED compartment.

BACK PANELS

Wood particleboard panels in class E1 Th.14mm. in melamine, matt lacquer, veneered wood, glass category A, acid-etched painted glass category C or in tecnomarble
Edges Th.0,3mm, wood effect. Laterally edge co-extruded rigid / soft transparent PVC.

WOODEN FRONTS

Melamine faced wood particleboard panel, Th. 22mm with melamine synchro-pore finish.
Wood particleboard class E1 Th.22mm. with lacquered finish or wood with horizontal grain.
Edge Th.1mm in ABS or wood.

FRONTS PROFILE “0”

Melamine panel th.19mm.

with applied tempered glass, th.4mm or mirror,
with applied eco-leather,
with applied leather,
with applied Tecnomarble,
with applied wood panel:

Profile th.2mm. in drawn aluminium, gun metal finish or O..lacquered in range colours (with surcharge € 135).

HINGED GLASS DOOR WITH FRAME

Extruded aluminum frame finish 524 Gun metal
Tempered glass Th.4mm.

HINGED AND FLAP DOOR “NARCISSE DAY”

Th.22mm. Metal frame in gun metal finish, dedicated handle.
Tempered glass.

“BAR” CONTAINER

Flap door folding Th.50mm.
The configuration options include n°1 Eco-leather mat in the inner base shelf, mirror on the back, n°2 partition sides with n°1 glass shelf and n°3 Eco-leather mats on the inner base shelf, n°1 Eco-leather mat inside the flap front.
Optional: LED light inserted in to the top protruding shelf including sensor.

"TEKA" HINGED DOORS

Box-shaped tempered glass Th.6mm with visible hinges in brushed steel.

PANELS TO BE INSERTED FOR EXTERNAL TV

Wood particleboard panel, class E1 th.25mm, in melamine facing, lacquered finish, or wood.

STEP-LADDER

Tubular welded steel varnished gun metal.
Steps in varnished tubular steel covered with non-slip plastic material.
Fixture to the rails in plastic material.

DRAWER INTERIORS

Wood particleboard panels in class E1 Th.14mm, melamine faced.
Drawer bottom: wood particleboard panels in class E1 Th.8mm.

All electrical systems are provided pre-wired in compliance with current laws.

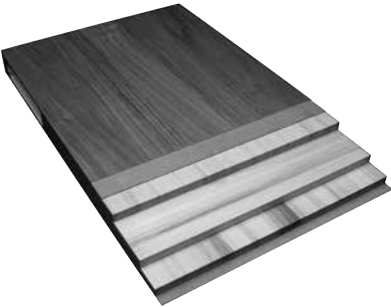

HARDWARE

Joints and shelf supports in pressure die casted iron and nickel-plated steel.
Fixtures for fitting to the wall in steel.
Hinges: in steel, with soft closing mechanism, or with spring-latch opening (for push opening system).
Push in plastic material with spring piston.
Flap doors Down and Up: mechanism in metal with plastic cover, steel cable with spring-latch for opening and closing.
Push in plastic material with spring piston.
“Narcisse Day” hinged doors with 2 hinges applied on base and cover.
Drawers’ runners: in steel, invisible, fitted on ball bearing. (weight capacity Kg 10).
Soft closing with piston, or with spring-latch opening.
Handle Regula and Rod: in brushed drawn aluminium, varnished gun metal or O..lacquered in range colours (with surcharge € 68).
Door profiles: in drawn aluminium (UNI 6060) varnished, gun metal or O..lacquered in range colours (with surcharge € 135).

TECHNICAL DESCRIPTION OF FINISHES

Matt lacquered:	Closed pore water-based 12 Gloss semi-matt pigmented varnish.
Glossy lacquered:	Base coat of closed pore water-based semi-matt pigmented varnish with 2 top coats of glossy transparent UV varnish and 98 Gloss brilliant brushed finish.
Wood:	50 brushed cenere, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish. 51 brushed black oak, coloured with semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish. 53 brushed elm grey, coloured with semi-transparent grey varnish, open pore 6 gloss semi-matt acrylic finish. 66 tobacco, semi-transparent varnish, open pore 6 gloss semi-matt acrylic finish.
Melamine:	wood particleboard, in the finishes: 840 metallic graphite, 841 metallic champagne, 842 metallic dark bronze, 853 tobacco, 866 cenere, 878 elm tranché grey, 877 ambience.
Tecnomarble:	Porcelain tile th.6mm. colour T01 Calacatta Smooth (grey veining), T02 Calacatta Oro, T03 Dream Arabesque and T05 Sahara Noir.

Panel (38 mm thick) consisting of three crisscrossed layers of poplar blockwood covered by a layer of MDF (3 mm thick) on the two sides and veneered.
Built in this way, the panel provides Crossing with special properties such as lightness (which enables wall solutions to be developed), stability (which allows shelves up to 1280 mm long to be used) and sturdiness (which enhances the anchorage of the assembled elements).

MODULARITY

HEIGHTS FOR FLOOR-BASED MODULES

A minimum space of 20mm above the composition is required for assembling.

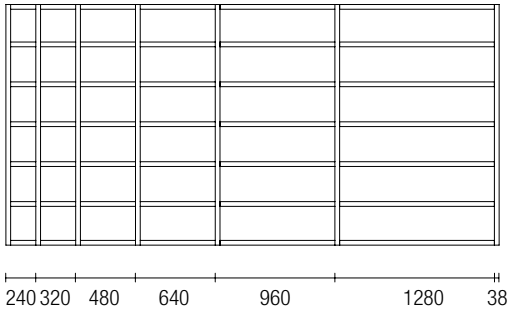

HEIGHTS FOR OVERHANGING MODULES ON CONTAINERS

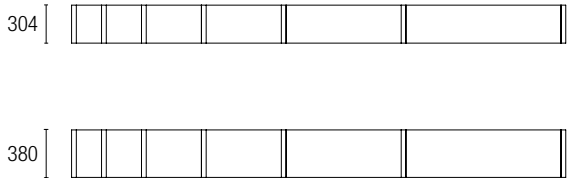

WIDTHS

A min. space of 50mm laterally the composition is required for assembling (upon request it is possible to foresee niche-assembling).

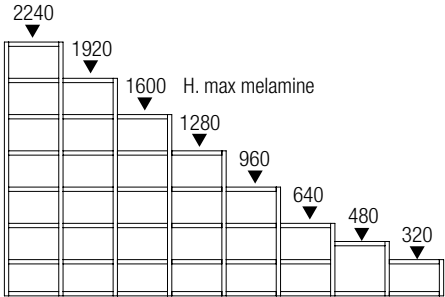

DEPTHS

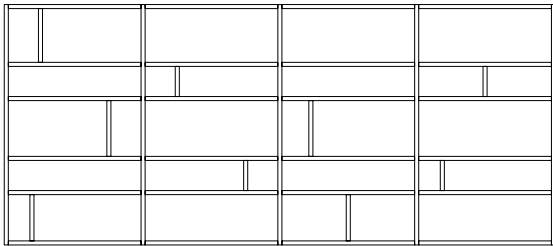

HEIGHTS FOR HANGING MODULES

Leave at least 80/100mm. for upper adjustments.
Leave at least 20mm. for lateral adjustments.

INSERTION PANELS Th. 38 mm

To position between two shelves to divide the compartments in width.

Hinges for doors with handle / for doors with push-opening

In steel, with accelerating effect on push-opening.
Easy and quick assembling; personalized covering cap.
Can be adjusted in the three directions.

Rails for drawers with handle

In steel, with ball-bearing movement and soft-closing mechanism.
Runners are invisible as fitted underneath the drawer.
Can be adjusted in height. Completely extractable runners.

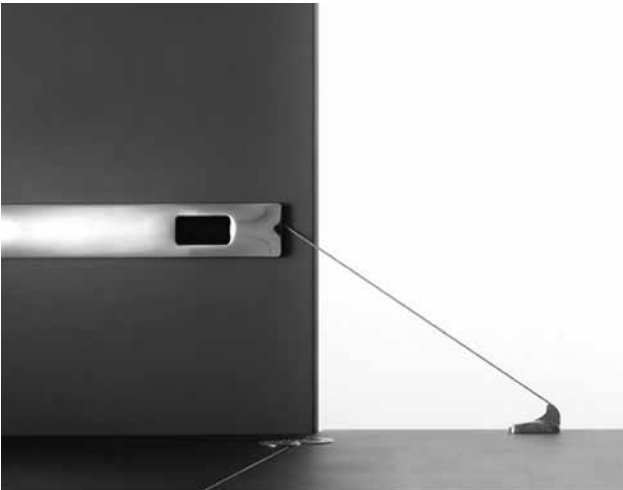

Rails for drawers with push-opening

In steel, with ball-bearing movement and accelerating effect on push-opening. Runners are invisible as fitted underneath the drawer.
Can be adjusted in height. Push piston fitted on the rail.
Completely extractable runners.

Flap UP Mechanism

In aluminium alloy with cover in plastic material.
Equipped with soft closing device.
Position of open door and piston strength can be regulated.

Flap DOWN mechanism

Semi built-in case with cover in plastic material finish ambience.
Steel cables with soft-closing device.
Position of open door and cable strength can be regulated.
Personalized covering cap.

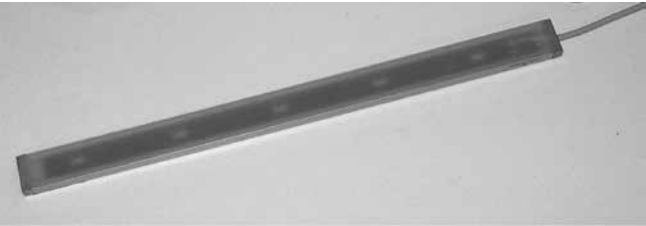

Hinge for NARCISSE DAY door

Hinged door system comprising 2 hinges applied on base and cover with soft-closing shock absorption system.

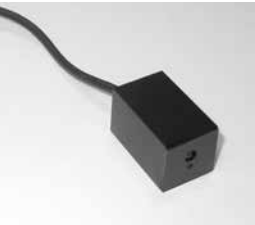

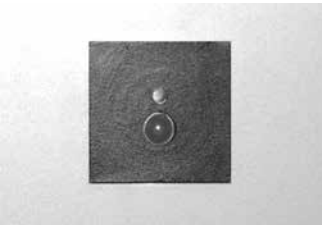

Hinge for NARCISSE DAY DOWN flap door

Recessed hinge for Down opening flap doors.
Dedicated for NARCISSE DAY door frames.

IR
New system with receiving bar for infrared signals of HI-FI devices placed inside a container.
The bar is positioned inside every unit, and receives the signal of every HI-FI element through a receiver positioned on the TV panel.
It is prepared for connection to another device to be placed in an adjacent unit. It is universal and suitable for all types of audiovisual equipments and decoders.

Mobile phone induction battery charger
Phone recharging system designed with induction technology.
Usable on shelves Th.38mm.
Recessed with position shown in drawing.

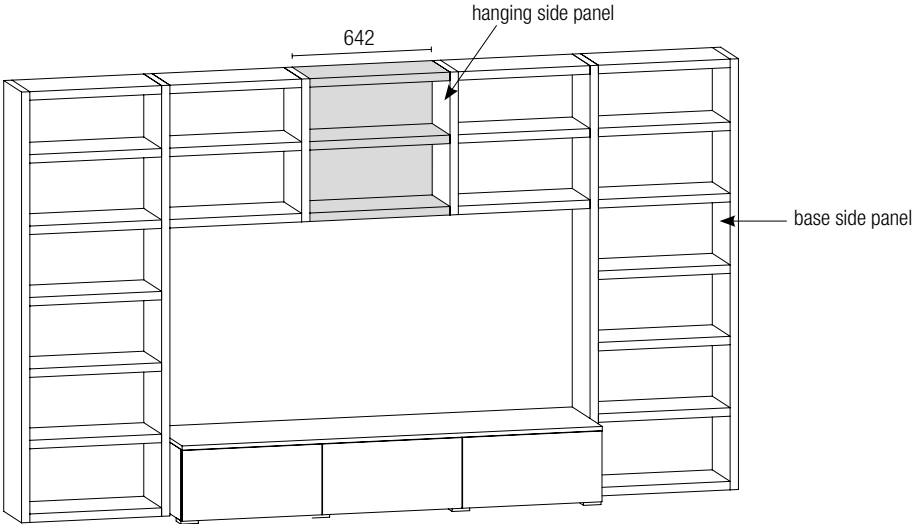

Recessed USB socket
Built in USBx2 connector.
Usable on shelves Th.38mm and back panels Th.14mm.
Positionable as drawn.
Sliding aluminium cover.

Cableway ø60mm.
Can be used on shelves and bookcase covers.
Varnished gun metal.
Position to define on the order.

BRIDGE ELEMENT WITH BASE CONTAINER

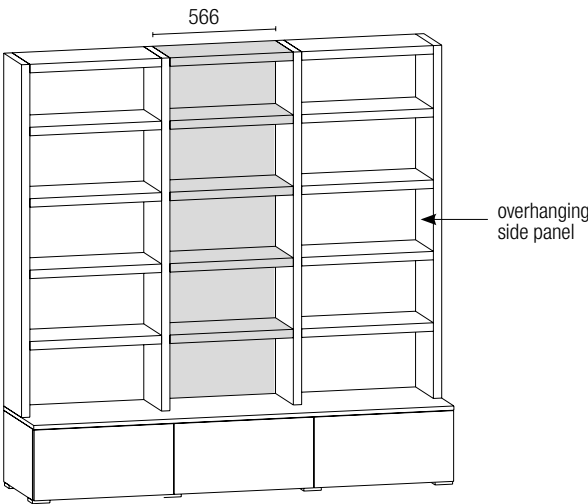

Floor-based side panels. Central shelves for bridge to measure 604mm + 38mm = 642mm

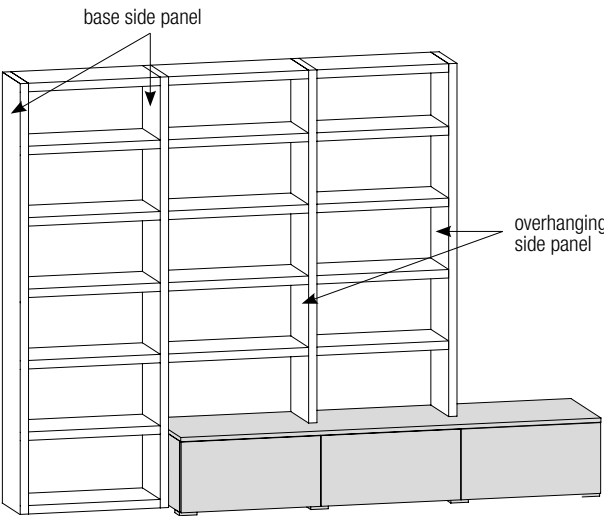

OVERHANGING MODULES POSITIONED ON FLOOR-BASED CONTAINERS

Overhanging side panels.

Shelves to measure 604mm – 38mm = 566mm

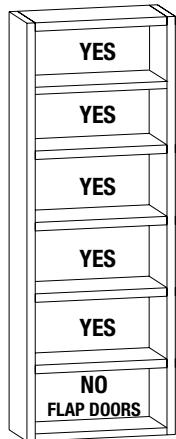

ELEMENTS IN COMBINATION WITH BASE CONTAINERS AND HANGING UNITS

RULES FOR FLAP DOORS

Flap doors **CANNOT** be mounted on the lower compartment of compositions.

For feasibility and costs, see the chapter on “Supplements and reductions” on page 337.

DRILLING HOLES SIDE PANELS

All the side panels are pre-drilled every 80mm. Hole Ø 3mm.

A - Upper shelf is screwed on.

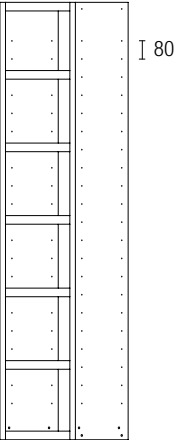

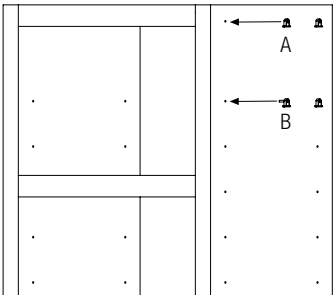

B - Shelf supports with pin are adjustable.

DRILLING HOLES SIDE PANELS AS PER DRAWING

Hole Ø 3mm. TO DRAWING, 80mm. centres, included in the price.

Hole Ø 3mm. FITTING holes, 80mm. centres, supplement for module € 65.

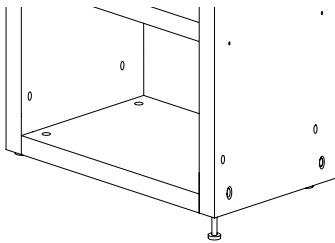

Hole Ø 3mm. at non-standard distances on wood sides, supplement for module € 130.

ADJUSTABLE FEET

Pre-fitted on the side panels. Can be adjusted in height up to 20mm.

Side panel can be adjusted with screwdriver with a Philips head.

NICHE ASSEMBLING

Upon request a bookcase can be prepared for niche assembling.

In this case both base and upper shelf of a terminal module will be screwed on.

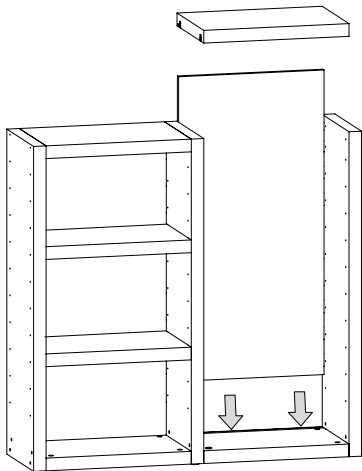

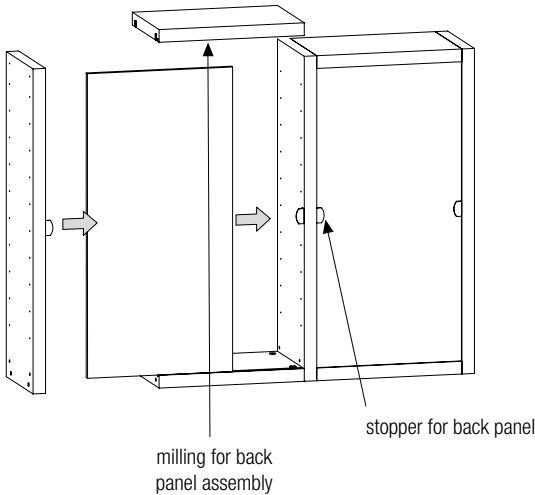

BACK PANELS

Thickness 14mm.

To be positioned between upper and lower shelves.

Laterally edged with co-extruded profiles.

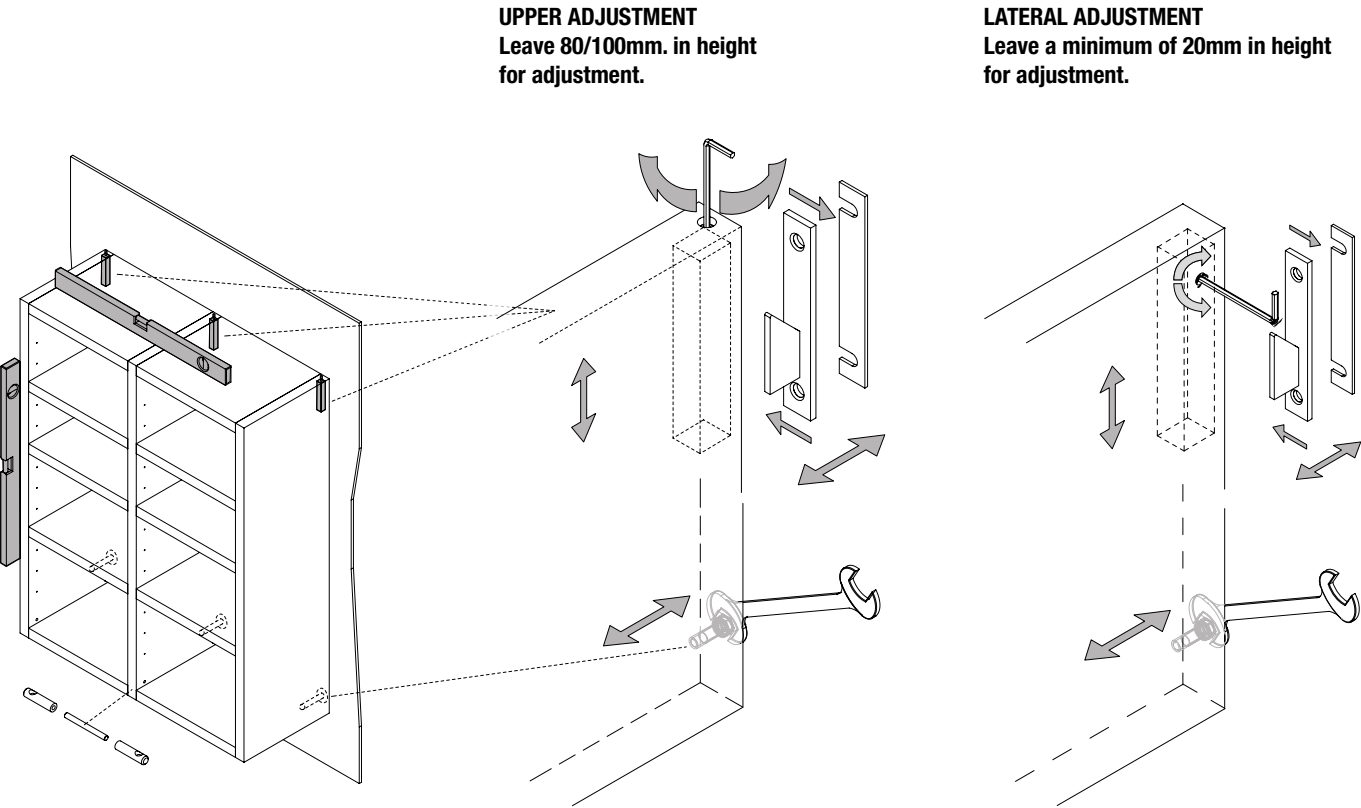

For back panels H.1600mm and over a stopper is supplied, fitted on the side panel, to hold the back panel in place.

FIXING HANGING SIDE PANELS

All the side panels are fitted with hardware fixtures to be fixed to the wall.
Equipped with standard plugs. Also available kit with strengthened plugs for concrete walls or brick walls that guarantee a superior max. weight capacity.
The wall adjusting element and the inferior feet allow transversal adjusting.
We do not recommend use on plasterboard walls.

Note - Upper adjustment on hanging side panels is standard.
See page 337 for lateral adjustment supplement for ceiling-mounted compositions.

The type of material used and the special hardware fixtures allow a superior max. weight capacity with respect to traditional standards.
Fixing of the hanging elements needs to be done according to the rules of the trade and on walls suitable for the plugs included or the special strengthened plugs (which increase the max. weight capacity).

We do not recommend fixing hanging bookcases on plasterboard or similar walls.
MisuraEmme cannot be held responsible for elements not correctly fixed.

WOOD VERSION

Hanging side panel: with plugs included (not on plasterboard) Kg.250

with strengthened plugs (only on concrete or brick walls) Kg.400

Shelf W.1242mm. weight distributed only in width Kg. 60

Hanging bookcase module H.2240mm with 5 shelves W.1242mm, approved by CATAS standards (office) EN14073 protocol 85290.

LACUERED / MELAMINE VERSION

Hanging side panel: with plugs included (not on plasterboard) Kg.150

with strengthened plugs (only on concrete or brick walls) Kg.250

Shelf W.1242mm. weight distributed only in width Kg. 40

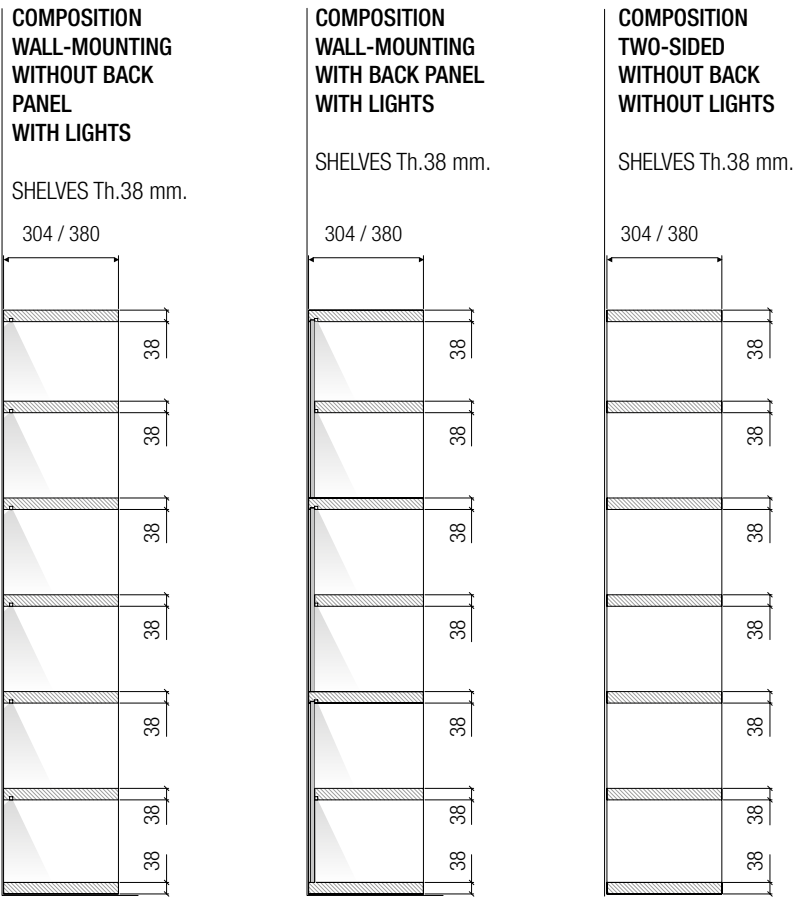

Hanging bookcase module H.2240mm with 5 shelves W.1242mm, approved by CATAS standards (office) EN14073 protocol 85290.

EXAMPLE DIAGRAM FOR LIGHTING

LED horizontal lighting

LED light recessed into the shelf/ horizontal cover.

- All lights have a temperature of 3000K.
- In columns reduced in width, dimensions of lamps correspond to the lower measurement.
 - It is possible to reach the power supply units from the top of the cover.
 - In each module with light and without back, it is necessary to electrify both side panels.

- The composition layout cannot be modified.
- Dividers can be inserted into the system with this arrangement (Right) or with an inverted arrangement (Left).

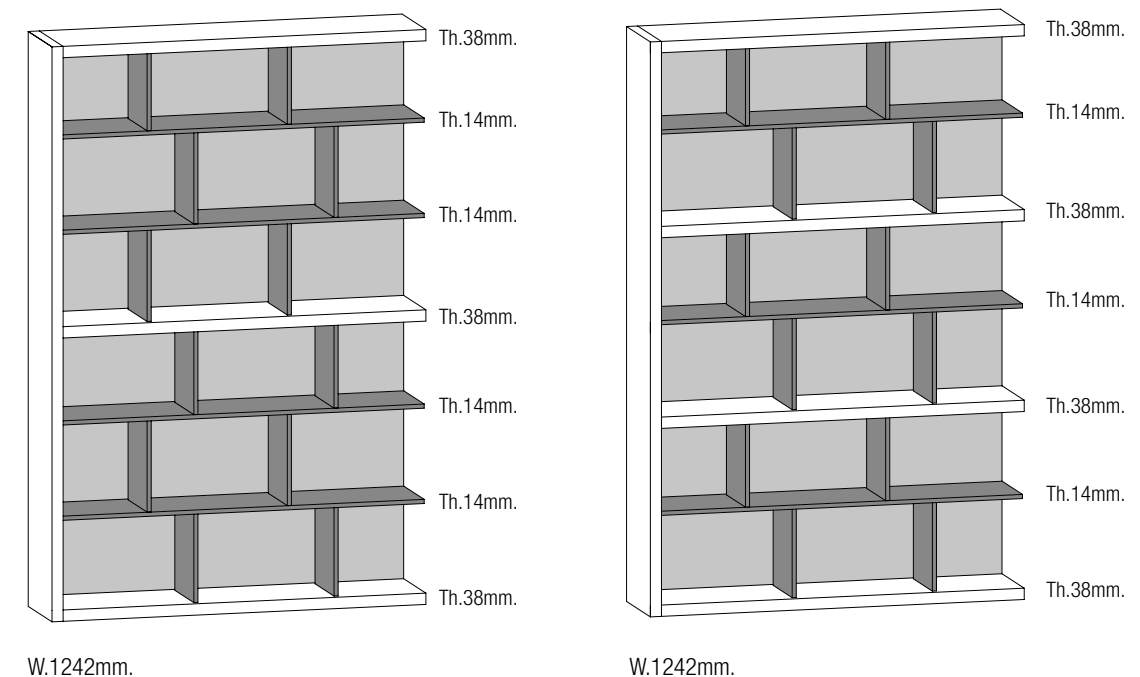

TECHNICAL NOTES - RASTER Th.14mm. WITH BACK

STRUCTURAL ELEMENTS

MODULARITY

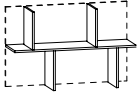

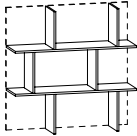

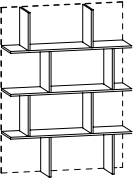

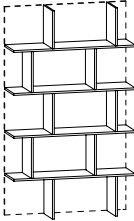

- For compositions taller than 5 compartments, position a shelf Th.38mm.
- It is possible to insert LED lights into shelves Th.14mm.
- It is possible to combine the risers of different heights for create other raster composition

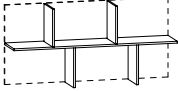

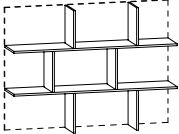

- For compositions taller than 3 compartments, position a shelf Th.38mm.
- It is possible to insert LED lights into shelves Th.14mm.
- It is possible to combine the risers of different heights for create other raster composition

FLOOR DOORS

CENTRAL DOORS

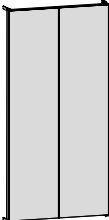

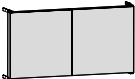

CENTRAL DOORS

FLOOR DOORS

TEKA DOORS

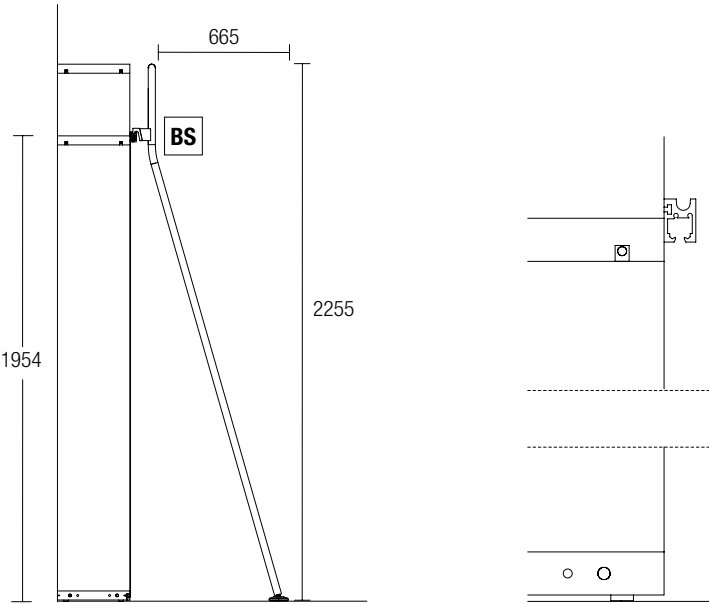

Box-shaped doors made in tempered glass thickness 6mm, with visible hinges in brushed steel.
The thickness of the door is 50mm, to be added to the depth of the bookcase structure (D.304 / 380).
Available in the version “floor-base”, with the lower part on the base of the bookcase, or as “middle door”, to be positioned in the middle of a module (hanging or floor-based). In a Crossing composition, a number of modules with Teka doors can be placed next to each other.
Teka doors CANNOT overlap.
The units underneath and above the doors Teka must be compulsorily open.
Finishes: extra light glass V00 or transparent grey glass V05 (category A).

Touch Kit

- n°1 Touch Kit for each transformer as an alternative to the radio remote control unit or the switch, to position on a side panel of the composition, max 1 touch kit per side panel.

CODE	TOUCH
PRICE	341

LED light motion sensor CROSSING

- Motion sensors to switch on the lights are recommended on wardrobes with hinged, sliding and flush doors.
- Add a sensor for each module.
- Led lights in Crossing compositions DO NOT have the possibility to add motion sensors; in this case radio remote control or controlled socket.
- The motion sensor can be used together with the “portable - wall mounted” remote controls by adding the new “Standard Switch - Wi-Fi Switch” control unit.

CODE	LZSE50
PRICE	156

Portable dimmable radio control

- Each remote control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on CROSSING day system, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor CROSSING.
- A “ Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

CODE	KRLEDN
PRICE	78

ELECTRIFICATION SIDE PANEL, SUPPLEMENT COD. FMFD4 € 134

In each module with light and without back, it is necessary to electrify both side panels.

LED LIGHTS

ACCESSORIES

Wall mounted dimmable remote control

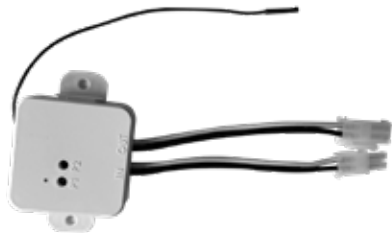

- Each radio control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on CROSSING day system, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor CROSSING.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

CODE	LZRDP
PRICE	169

Basic control unit

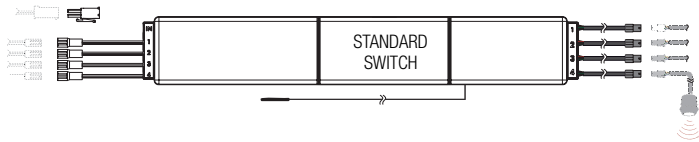

- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled by remote control and there is no possibility of using the sensor.

CODE	LZCDB
PRICE	104

Standard Switch control unit

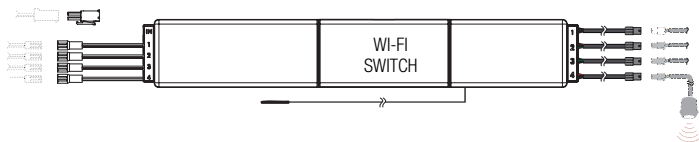

- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable - wall” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.

CODE	LZCDS
PRICE	254

Wi-Fi Switch control unit

- The Wi-Fi Switch control unit is mandatory when you want to use the electrical system via “portable - wall” radio control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.
- The Wi-Fi Switch has the additional feature of being able to be connected to your device “smatphone - tablet - voice commands - Google Home - Alexa” for remote use with App Tuya downloadable for free.

designer CASTIGLIA ASSOCIATI

OVER is a modular system of units 380mm. deep available in
- 8 widths : W.320 - 480 - 640 - 960 - 1280 - 1600 (only H.1855) - 1920 - 2240mm.
- 3 heights : H. 1855 - 2255 - 2655mm.
Back panels 25mm. thick available in different finishes that can be overlapped through aluminum trims system, patented by MisuraEmme, integrated with a recessed lighting system.

IT IS NOT ALLOWED CHANGE THE DIMENSIONS. FOR SPECIAL REQUESTS PLS CONTACT THE COMPANY.

MELAMINE VERSION

SIDES – BASES – SHELVES – WALL SHELVES Th.38mm.
Wood particleboard th.38mm in melamine or lacquered finish.
Edges th.1mm in ABS in the same finish as the panel.

SIDE PANELS
Option of inserts in different finishes to be matched to the back ones, fitted through flush channeling groove system. (only available on listel blockboard version H.2255mm or H. 2655mm.)
Equipped with adjustable feet.

BACK PANELS
Wood particleboard panels in class E1 Th.25mm.
Matt lacquer or wood finish or to be matched as follows
Tecnomarble / wood
Glass cat. A / wood
Wood / wood
Melamine
Edges Th.0,3mm., wood effect.

ALUMINUM SHELVES
Trapezoid shaped aluminum draw-plate structure with aluminum side caps, painted in the expected colours.
Fitting to the back panel through aluminum trims, patented by MisuraEmme, included recessed LED lighting cables system. LED 3000K. All electrical systems are provided pre-wired in compliance with current laws.

LEATHER SHELVES Th.38mm.
Trapezoid shaped aluminum draw-plate structure with aluminum side covers, coated completely in smooth leather.
Fitting to the back panel through aluminum trims, patented by MisuraEmme, included recessed LED lighting cables system. LED 3000K. All electrical systems are provided pre-wired in compliance with current laws.

DRAWERS
External structure covered in Tecnomarble / glass cat. A / matt lacquer
Internal structure in wood particleboard panels melamine Primo Fiore with totally pull-out guides.
Drawer with under protruding opening.

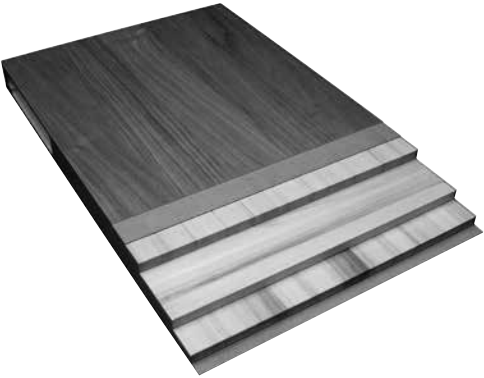

HINGED DOORS / FLAP DOWN DOORS Th.22mm.
Hinged doors with push-pull opening.
Flap down doors opening.
Aluminum frame in gun metal that can be matched with:
- wooden panel 6mm. thick in matt lacquer or veneer
- glass panel 4mm. thick rear varnished or transparent
- Tecnomarble 6mm. thick

ALUMINUM SHELVES Th.38mm.
Trapezoidal section drawn aluminum, fitted with aluminum side caps, painted in the colors provided.
Backrest attachment system by means of an aluminum profile, patented by MisuraEmme, including pre-wired electrification and 3000K gradation LED lights.
All electrical systems are supplied in compliance with current regulations.

LEATHER SHELVES Th.38mm.
Trapezoidal section drawn aluminum, equipped with aluminum side caps, completely covered in smooth leather (not worked) from the sample set.
Backrest attachment system using an aluminum profile, patented by MisuraEmme, including integrated, pre-wired electrification and 3000K gradation LED lights. All electrical systems are supplied in compliance with current regulations.

BLOCKBOARD PANEL VERSION

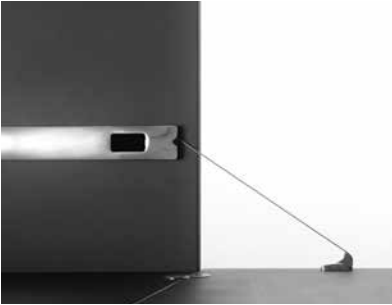

Panel 38 mm thick consisting of three crisscrossed layers of poplar blockwood covered by a layer of MDF (3mm. thick) on the two sides and veneered.
Built in this way, the panel provides Over with special properties such as lightness, stability which allows shelves up to long to be used and sturdiness which enhances the anchorage of the assembled elements.

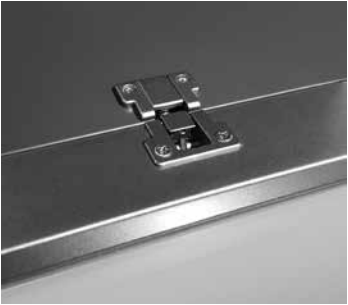

TECHNICAL NOTES

Hinge for NARCISSE DAY door
Hinged door system comprising 2 hinges applied on base and cover with soft-closing shock absorption system.

Flap DOWN mechanism
Semi built-in case with cover in plastic material finish ambience.
Steel cables with soft-closing device.
Position of open door and cable strength can be regulated.
Personalized covering cap.

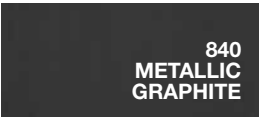

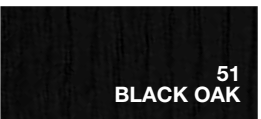

Hinge for NARCISSE DAY DOWN flap door
Recessed hinge for Down opening flap doors.
Dedicated for NARCISSE DAY door frames.

Touch Kit

- n°1 Touch Kit for each transformer as an alternative to the radio remote control unit or the switch, to position on a side panel of the composition, max 1 touch kit per side panel.

CODE	TOUCH
PRICE	341

LED light motion sensor

- Motion sensors to switch on the lights are recommended on wardrobes with hinged, sliding and flush doors.
- Add a sensor for each module.
- Led lights in Over compositions DO NOT have the possibility to add motion sensors; in this case radio remote control or controlled socket.
- The motion sensor can be used together with the “portable - wall mounted” remote controls by adding the new “Standard Switch - Wi-Fi Switch” control unit.

	60W
CODE	LZSE50
PRICE	156

Portable dimmable radio control

- Each remote control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on OVER cabins, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor OVER.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

LED LIGHT

ACCESSORIES

Wall mounted dimmable remote control

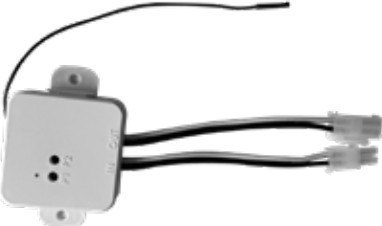

- Each radio control can support up to 4 electrical system kits thanks to the 4 channels provided, separately or simultaneously.
- The use of radiocomado is recommended on cabins OVER, when it is not possible to wire the lighting with the housing system (no controlled socket) or as an alternative to the motion sensor OVER.
- A “Basic - Standard Switch - Wi-Fi Switch” must be added to the remote control.

CODE	LZRDP
PRICE	169

Basic control unit

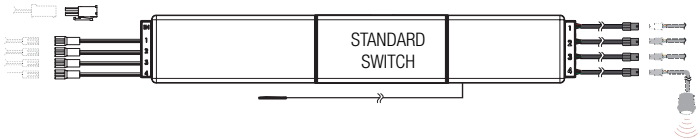

- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled by remote control and there is no possibility of using the sensor.

CODE	LZCDB
PRICE	104

Standard Switch control unit

- The Standard Switch control unit is mandatory when you want to use the electrical system via “portable - wall” remote control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.

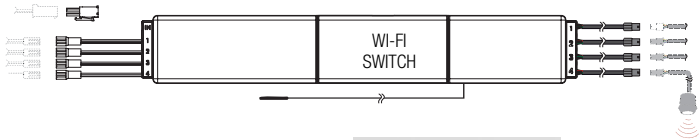

CODE	LZCDS
PRICE	254

Wi-Fi Switch control unit

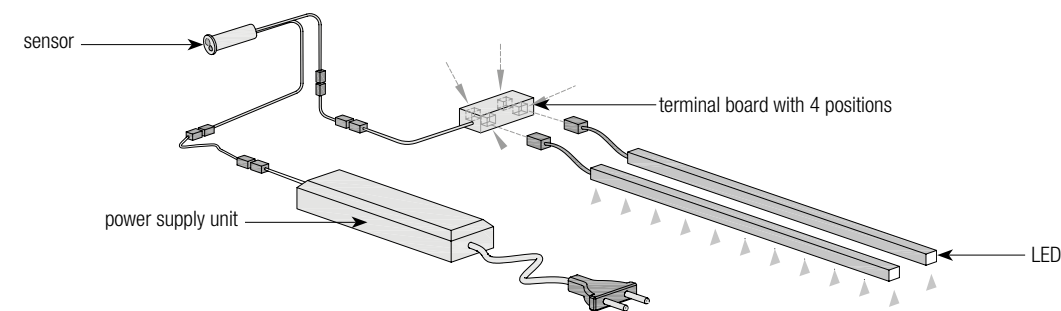

- The Wi-Fi Switch control unit is mandatory when you want to use the electrical system via “portable - wall” radio control; the number of remote controls associated with a control unit is unlimited.
- Each control unit must be connected to a single electrical system kit; no more than one transformer can be connected to a control unit.
- This type of control unit allows to be controlled both by remote control and by motion sensor simultaneously.
- The Wi-Fi Switch has the additional feature of being able to be connected to your device “smatrphone - tablet - voice commands - Google Home - Alexa” for remote use with App Tuya downloadable for free.

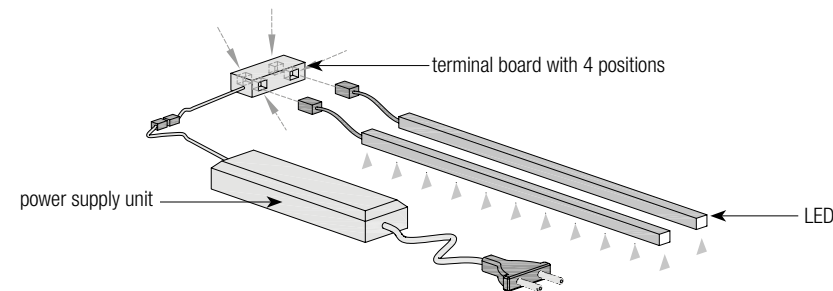

CODE	LZCDW
PRICE	295

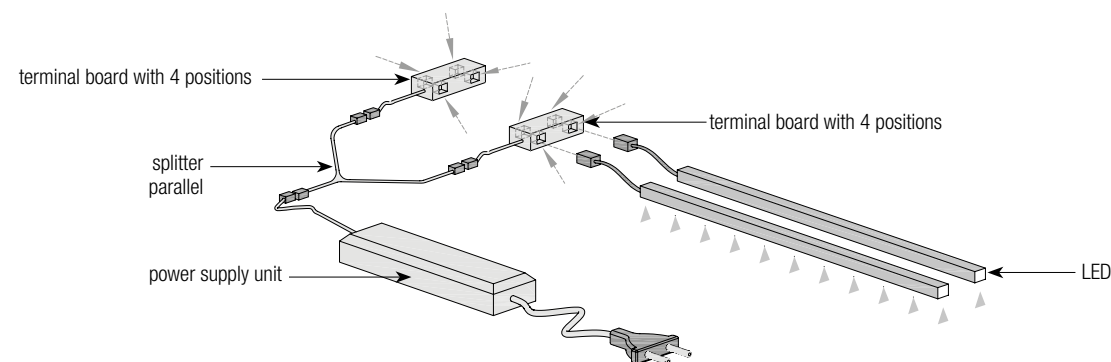

SYSTEM WITH FRONT SENSOR PANEL ON COVER - WITH 4 LEDS

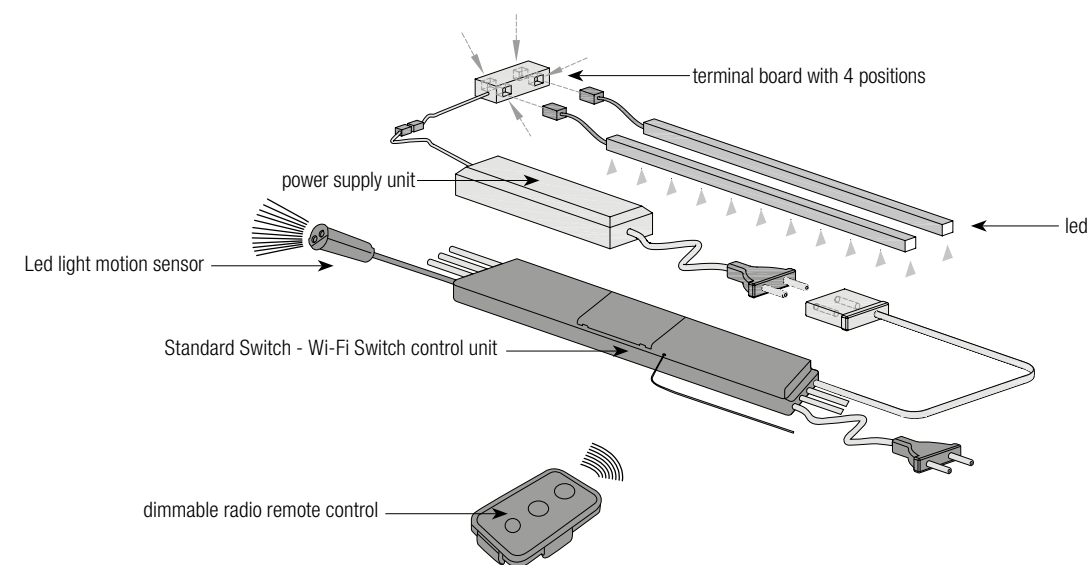

SYSTEM FOR REMOTE CONTROLLED SWITCH - WITH 4 LEDS

SYSTEM FOR REMOTE CONTROLLED SWITCH - WITH MORE THAN 4 LEDS

SYSTEM WITH DIMMABLE CONTROL UNIT AND RADIO REMOTE CONTROL - WITH 4 LEDS
