Non è tecnicamente possibile garantire, a distanza di tempo e tra un lotto di produzione e l'altro, la costanza di colore, sia su parti legno laccate, sia sui vetri e vetri verniciati. Le finiture in legno essenza possono subire nel tempo variazioni dovute alla luce ed invecchiamento del materiale stesso, pertanto variazioni di tonalità non costituiscono difetto ma bensì testimonianza dell'utilizzo di materiali naturali e lavorazioni effettuate con cura artigianale.

It is technically impossible to guarantee that colours will not change over time or vary from one production lot to another on parts in lacquered wood, glass or painted glass. Over time, the appearance of wood finishes may change due to exposure to light and ageing of the material. therefore colour variations should not be considered as defects, but as proof of the use of natural materials and authentic artisan processes.
